Life in a Tank Richard Haigh, M. C., 2015-08-04 The first tank book by a tank commander Tanks To the uninitiated the name conjures up a picture of an iron monster breathing fire and exhaling bullets and shells This new branch of the service with no traditions to build upon no history and no laws of tactics has brought out the individual man and made him stand out The tank grew out of the armored motor car and the fighting men inside were cooped up in a space which reminds one of the old torture chambers in which there was no room to sit stand or lie Once inside with the door shut each man has to remain in an atmosphere of petrol and oil unable to see where he is going for only the officer in charge can see when the tank is closed down All the time bullets and shell splinters and bombs are striking the sides and the men inside hear only an unholy din all others are given by signal and none ever knows when some accident such a direct hit or a breakdown will disable his iron home and when he will either be captured or killed as he tries to escape or even worse the petrol may catch fire and he will be roasted alive Such is the description of tank fighting The men who are engaged in it endure a strain which must even under the best conditions render them unfit for further work after a few years Otago Daily Times Issue 17575 17 March 1919 An informal account of how the tanks got into the big show and of what it means to serve in one of them The Independent Volume 95 1918 A book about one of the marvels of the present war Captain Haigh is the commander of the tank Britannia which all Providence had the opportunity of watching not long ago as it lumbered across Exchange Place He describes his experiences at the front in this strange fighting machine which goes into action at the time of the fiercest fighting Quarterly Bulletin of the Providence Public Library Volumes 16 17 1918 Life in a Tank is described by Richard Haigh M C commander of the tank Britannia He and his companions left the infantry for the tank service because there seemed to be a better sporting chance with a shell than with a bullet and because the new monster had our imagination

in thrall The Nation Volume 107 1918 A frank manly free from pose book on a still unfamiliar subject filled with details of the mechanism how the tank works how it feels to be riding in it how and where it goes throughout the book the personal element is used with much skill and humor While horrors are omitted the author describes a near by tank on fire in action and the passing of two comrades pathetic tales told with reserve The last chapter on the philosophy of war is a choice and calm bit of writing containing both comfort and uplift for those who are to see nothing of the real thing and to do little more than wait for the end of the strife SAE Society of Automotive Engineers Journal Volume 2 Issue 2 Volume 3 Issue 6 1918 Contents I The Meaning of the Tank Corps II First Days of Training III Later Days of Training IV Moving up the Line V Preparations for the Show VI The First Battle VII The Second Battle VIII Rest and Discipline IX A Philosophy of War
