Teaching and Learning Difficult Histories in International Contexts Terrie Epstein, Carla Peck, 2017-08-07 Grounded in a critical sociocultural approach this volume examines issues associated with teaching and learning difficult histories in international contexts Defined as representations of past violence and oppression difficult histories are contested and can evoke emotional often painful responses in the present Teaching and learning these histories is contentious yet necessary for increased dialogue within conflict ridden societies reconciliation in post conflict societies and greater social cohesion in long standing democratic nations Focusing on locations and populations across the globe chapter authors investigate how key themes including culture identity collective memory emotion and multi perspectivity historical consciousness distance and amnesia inform the teaching and learning of difficult histories

Exploring Positive Psychology Erik M. Gregory, Pamela B. Rutledge, 2016-10-03 Looking for an introduction to positive psychology that offers real life examples This overview of the

science of happiness supplies case studies from some of the world's most successful organizations and describes ways to experience the personal impact of this exciting scientific field. Rather than focusing on treating what is wrong with a person, positive psychology seeks to understand and foster the things that drive happiness, creativity, and emotional fulfillment. This is a relatively new area of psychological study, and this reference book presents the research and practice of positive psychology in an informative and accessible format. Readers are given a history of the field, its current applications, and the future implications of this psychological discipline. Case studies from companies such as The Body Shop, Volvo, Zappos, and Google highlight the impact of positive psychology when it's applied in a modern business setting. These case studies, along with biographies of leaders in the field, highlight each chapter and connect the dots between the empirical theory of positive psychology and its practice. Readers also receive tools to apply the practices to their own lives.

The Suicidal Person

Konrad Michel, 2023-09-12. Konrad Michel, a leading psychiatrist and acclaimed expert, draws on decades of experience to offer necessary new ways of understanding and preventing suicide. After one of his first patients died by suicide, Michel devoted himself to researching self-harm. Writing vividly and personally, he recounts more than forty years of working with and learning from suicidal patients. Michel shows that suicide is not just a consequence of mental illness but an action related to a person's life story. Drawing on hundreds of interviews with suicidal patients, he argues that suicide and suicide attempts occur when someone experiences extreme emotional pain that severely impairs the ability to think and act rationally. Based on this understanding, Michel and his colleagues developed a person-centered approach to treatment that overcomes the limitations of the traditional medical model. Through a brief therapy, patients find a personally meaningful narrative, understanding of their suicidal thoughts and impulses. People at risk can learn to recognize their vulnerabilities in order to manage potentially life-threatening situations and keep themselves safe. Michel emphasizes the importance of communication; medical professionals need to connect with patients as individuals to identify specific warning signs. Both compassionate and rigorous, this book provides vital insight into suicide prevention and shows how changing attitudes will help save lives. It includes practical advice for people at risk, with special emphasis on young people as well as for relatives and health professionals.

Social Problems Anna Leon-Guerrero, 2018-07-10. Empower your students to become part of the solution.

The new Sixth Edition of Anna Leon Guerrero's *Social Problems: Community Policy and Social Action* goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions. With a clear and upbeat tone, this thought-provoking text challenges readers to see the social and structural forces that determine our social problems, to consider various policies and programs that attempt to address these problems, and to recognize and learn how they can be part of the solution to social problems in their own community. New to This Edition: Many of the social policy discussions, including immigration, LGBTQ rights, the Affordable Care Act, and Internet neutrality, have been updated to reflect the most recent government actions and debates. More recent

data and new data sources have been incorporated throughout both in the main narrative and in the Exploring Social Problems features New Voices in the Community subjects on gender work and the economy and war and terrorism appear in several chapters New In Focus topics include Black Lives Matters assault weapons and college drug problems The chapter on gender has been substantially updated with new or expanded coverage of binary cisgender transgender identification gender nonconformity discrimination sexual misconduct on college campuses and the rights of trans and intersex individuals Other new or expanded coverage elsewhere includes economic anxiety robotization in the workplace white nationalists feminist theories about race fake news net neutrality community policing gentrification and segregation in U S cities and the immigration and environmental policies of the Trump administration

Knowledge, Power and Young Sexualities

Tamara Shefer,Jeff Hearn,2022-07-27 This book troubles the ways young people have been constructed as trouble through critical readings of the effects and impacts politically and ideologically globally and locally of scholarship and practice directed at South African young people s sexualities over the last three decades of addressing HIV GBV and other sexual and gender justice challenges Located primarily in South Africa the book speaks to global concerns about the politics of knowledge and transnational flows of information and practice with respect to gender and sexuality and is framed by global imperatives and analyses located in transnational postcolonial and intersectional feminist frameworks The key argument developed here and explored in relation to several different forms of research and practice is that efforts to challenge HIV GBV and unequal sexual and gender practices among young people particularly as evident in heterosexual relationships have tended to reflect and reproduce re new ed orthodoxies about sexuality gender family and young people while bolstering global and local racist classist othering of certain communities and nation states and reiterating the innocence and authority of those already privileged and centred The book contributes to critical reflexive work on global practices of knowledge and its complex enmeshment with power in the terrain of sexual and gender justice work aimed at young people
