**Battlefield Tourism** David William Lloyd, 2014-03-04 In the aftermath of the Great War a wave of tourists and pilgrims visited the battlefields cemeteries and memorials of the war The cultural history of this battlefield tourism is chronicled in this absorbing and original book which shows how the phenomenon served to construct memory in Britain as well as in Australia and Canada The author demonstrates that high and low culture tradition and modernism the sacred and the profane were often inter related rather than polar opposites The various responses to the actual and imagined landscapes of battlefields are discussed as well as bereavement and how this was shaped by gender religion and the military experience Individual memory and experience combined with nationalism and imperial identity as powerful forces informing the pilgrim experience But this book not only analyzes travel to battlefields which unsurprisingly paralleled the growth of the modern tourist industry it also looks closely at the transformation of national war memorials into pilgrimage sites and shows how responses both to battlefields and memorials which continue to serve as potent symbols evolved in the years after the Great War

**Battlefield Tourism** David Wharton Lloyd, 1998-09 This ground breaking book looks at the rise of the tourism industry around the battlefields cemeteries and memorials of the First World War Daily Report: People's Republic of China. **Gigantic Zoo** Thomas M. Lekan, 2020 Our Gigantic Zoo tells the story of Bernhard Grzimek the most important European wildlife conservationist and his role in creating a permanent sanctuary for innocent animals in Serengeti National Park

**Paraguay--country Economic Memorandum** World Bank, 1992 Agriculture has been Paraguay's main source of growth since colonial times Agricultural exports continue to be a major determinant of the rhythm of growth New sources of growth commerce tourism and construction were developed in the 1960s In the 1970s growth accelerated sharply with the growth of the agricultural frontier and more importantly the construction of Itaipu dam The sale of surplus hydro power from Itaipu and from Yacireta when it is completed will benefit Paraguay for years to come The new government has taken a number of strong actions to restore stability including improving public finances bringing down inflation unifying and liberalizing the exchange rate freeing many interest rates and initiating a tax reform A number of structural changes that would continue to contribute towards these goals are advanced in this report Shifts in agricultural policy to promote a more intensive pattern of development and continued investment in and maintenance of transport infrastructure are essential Changes in financial sector regulation to reduce the artificial barriers between institutions and to improve financial supervision need attention Reduction and unification of tariffs improvements in management of privatizations and joint ventures and tax reform that lowers rates to collectible levels will prepare Paraguay for the signed MERCOSUR treaty

**Violent Environments** Nancy Lee Peluso, Michael Watts, 2001 Do environmental problems and processes produce

violence Current U S policy about environmental conflict and scholarly work on environmental security assume direct causal links between population growth resource scarcity and violence This belief a staple of governmental decision making during both Clinton administrations and widely held in the environmental security field depends on particular assumptions about the nature of the state the role of population growth and the causes of environmental degradation The conventional understanding of environmental security and its assumptions about the relation between violence and the environment are challenged and refuted in *Violent Environments* Chapters by geographers historians anthropologists and sociologists include accounts of ethnic war in Indonesia petro violence in Nigeria and Ecuador wildlife conservation in Tanzania and friendly fire at Russia s nuclear weapons sites *Violent Environments* portrays violence as a site specific phenomenon rooted in local histories and societies yet connected to larger processes of material transformation and power relations The authors argue that specific resource environments including tropical forests and oil reserves and environmental processes such as deforestation conservation or resource abundance are constituted by and in part constitute the political economy of access to and control over resources *Violent Environments* demands new approaches to an international set of complex problems powerfully arguing for deeper more ethnographically informed analyses of the circumstances and processes that cause violence

Unleashing Growth and Strengthening Resilience in the Caribbean Mr.Krishna Srinivasan,Ms.Inci Otker,Ms.Uma Ramakrishnan,Mr.Trevor Serge Coleridge Alleyne,2017-11-13 This book provides a diagnosis of the central economic and financial challenges facing Caribbean policymakers and offers broad policy recommendations for promoting a sustained and inclusive increase in economic well being The analysis highlights the need for Caribbean economies to make a concerted effort to break the feedback loops between weak macroeconomic fundamentals notably pertaining to fiscal positions and financial sector strains and structural impediments such as high electricity costs limited financial deepening violent crime and brain drain which have depressed private investment and growth A recurring theme in the book is the need for greater regional coordination in finding solutions to address the Caribbean s shared and intertwined macroeconomic and structural challenges The analysis suggests that strengthening regional and global market integration of Caribbean economies would provide an impetus to sustained growth in incomes and jobs Greater regional and global economic integration would also facilitate structural transformation and a shift toward new economic activities resulting in more diversified and less vulnerable economies A central challenge for the Caribbean is thus to come together as a region overcome the limitations posed by size and garner the benefits of globalization Efforts should build on existing regional arrangements accelerating progress in implementing these agreements would stimulate trade Policymakers could also promote deeper integration with Latin America and the rest of the world by pursuing new trade agreements leveraging current agreements more effectively or deepening them to include areas beyond traditional trade issues and developing port and transport infrastructure **Hawaii Documents** ,1987 **Hawaii Documents: Cumulative Index** Hawaii Documents
