Developing Learning Skills Through Children's Literature Mildred Laughlin, Letty S. Watt, 1986 This book suggests ideas for sharing literature that may be utilized in developing a scope and sequence of literature experiences for children in grades K 5 For primary grades K 2 the activities are primarily arranged through sharing the works of a particular author or illustrator Through this deliberate exploration the child begins to know that person as a friend S he is excited about new books by that same author or illustrator and discusses books on a level not often achieved if authors are approached only haphazardly Those included represent a variety of classic and current authors and illustrators too good to miss who have made a particular contribution to literature for young people

Themes Teachers Use Marjorie J. Kostelnik, 1996 Fresh class tested and requested often by teachers these 39 thematic units are filled with age appropriate child centered learning activities for such new topics as art and artists and science and scientists Adaptation suggestions are great for multiage and mainstreamed classrooms
