Journal extime Michel Tournier, 2018-05-31T00:00:00+02:00 dition revue par l auteur *Fascism, the War, and Structures of Feeling in Italy, 1943-1945* Simonetta Falasca-Zamponi, 2023 By bringing to life the cultural imaginaries and practices of the past Fascism the War and Structures of Feeling in Italy 1943 1945 raises ostensibly intractable questions on the epochal impact of what often appears as inconsequential the typically unseen and seemingly banal power of everyday experiences *The Modern Essay in French* Charles Forsdick, Andy Stafford, 2005 As a textual form the *essai* predominates in modern and contemporary literature in French Emerging from an earlier tradition and distinguished from its English language counterpart the French language essay ranges from St phane Mallarm to Colette Victor Segalen to Aim C saire Jean Grenier to Pierre Michon The *essai* remains however one of the most hazily identified of textual forms its definition often depending on the progressive elimination of all other generic possibilities Excluded from the archigenres theatre poetry r cit it can even be seen as a hold all category whose role is to absorb the anarchic extremes of writing It is perhaps this very lack of pretension to orthodoxy that has drawn so many writers to the *essai* The conventional understanding of the term as a tentative unsystematic exploration stresses the genre s provisional nature its refusal of any claims to comprehensiveness The *essai* exploits the devices of anecdote illustration and humour it is addressed to a wide and often general audience it is also intricately linked to the performance of ideological and writerly strategies often reordering the classical art of rhetoric and persuasion As the contributions to this volume show there is a need to outline an ethics and politics as well as poetics of essayism **Ordinary Writings, Personal Narratives** Martyn Lyons, 2007 Historians have often assumed that the lives of the poor and illiterate can never be known because they have left little record of their existence This book however will establish some of the main themes of a new field of historical study that of ordinary writings the improvised writings of the poor and the young *Handbook of Ecocriticism and Cultural Ecology* Hubert Zapf, 2016-05-10 Ecocriticism has emerged as one of the most fascinating and rapidly growing fields of recent literary and cultural studies From its regional origins in late twentieth century Anglo American academia it has become a worldwide phenomenon which involves a decidedly transdisciplinary and transnational paradigm that promises to return a new sense of relevance to research and teaching in the humanities A distinctive feature of the present handbook in comparison with other survey volumes is the combination of ecocriticism with cultural ecology reflecting an emphasis on the cultural transformation of ecological processes and on the crucial role of literature art and other forms of cultural creativity for the evolution of societies towards sustainable futures In state of the art contributions by leading international scholars in the field this handbook maps some of the most important developments in contemporary ecocritical thought It introduces key theoretical concepts issues and directions of ecocriticism and cultural ecology and demonstrates their relevance for the analysis of texts and other cultural phenomena **Michel Tournier** Mairi Maclean, 2003 **Spiritualism and Phenomenology** Emmanuel Falque, 2025-04-08 The conflict between

spiritualism and phenomenology will no longer take place Better it is through their encounter and their backlash that a new fruitfulness for thought will develop The case of Maine de Biran thus comes to exemplify a new beginning a la francaise for metaphysics on the one hand and for phenomenology on the other But the philosopher from Bergerac in the Dordogne is most often read according to his explicit meaning and not his implicit one He is supposedly the thinker of freedom and consciousness spiritualism or of the inner self and the lived body phenomenology But these readings forget the exceptions to the primitive fact of internal effort illness sleep sleepwalking madness the body object the outer self which mark Biran's oeuvre as one of the summits of a thought that escapes phenomenality and confers a real consistency upon corporeality A new Columbus of metaphysics as he himself names himself Maine de Biran read otherwise initiates for today a new beginning for thought

Michel Tournier's Children Christopher Anderson, 1998 Best known in America for his 1970 novel *The Ogre Le Roi des aulnes* Michel Tournier is arguably France's most important living popular author Since 1980 however Tournier has focused on making his fiction accessible to children who now constitute his primary audience Dr Anderson focuses on the evolution of Tournier's writing style in terms of myth initiation and intertextual reference He breaks new ground by demonstrating that Tournier's later works introduce young readers to initiatic structures and a ludic approach to reading a key to the understanding of Tournier's adult works It shows too the crucial role that initiation and intertextual reference play in unifying all of Tournier's fiction

Myth and the Fiction of Michel Tournier and Patrick Grainville Rachel Edwards, 1999 This study explores the ways in which myth in its various guises operates in the work of two of France's contemporary writers It draws attention to the similarities between their fiction and that of other novelists It explores myth in relation to literature music and the visual image

Michel Tournier Mathilde Bataillé, 2017 Michel Tournier oppose souvent deux manières d'appréhender le temps : travers les concepts de primaire et de secondaire empruntés à la cartologie Pour l'auteur les primaires n'ont ni regret ni angoisse de l'avenir et vivent au présent Les secondaires au contraire gardent un pied dans le passé et redoutent l'inconnu Ces deux modes d'appréhension du temps affirmés par Tournier se retrouvent en littérature et se traduisent par des choix esthétiques C'est cette vision du temps que s'intresse la présente étude Elle montre l'évolution de la perception du temps dans l'œuvre de Tournier qui apparaît comme un secondaire cherchant à se rapprocher d'un idéal primaire Cette évolution s'accompagne notamment de changements génériques des grands romans mythologiques *Vendredi ou les limbes du Pacifique* 1967 *Le Roi des Aulnes* 1970 *Les Météores* 1975 vers des formes plus brèves contes et nouvelles *Le Coq de bruyère* 1978 *Le Médiocrite amoureux* 1989 romans *Gaspard Melchior* et *Balthazar* 1980 recueils de textes brefs non fictionnels *Petites proses* 1986 *Clairabaissements* 1999 *Journal extrême* 2002 Cette étude met en évidence la configuration du temps propre à ces différents genres travers une double approche chronologique et esthétique qui souligne l'existence de plusieurs périodes dans l'œuvre de Tournier Page 4 of cover
