Lavenir De La Religion:

Bianchi,1994 Nel 1990 si tenne a Roma il XVI Congresso del I A H R che ebbe come tema la nozione di religione Venne
particolarmente analizzato l uso di tale termine da parte degli studiosi di lingua europea nei rapporti con le culture non

Kjøbenhavn i September 1884 Vahl,1886 *The End of the Soul* Jennifer Hecht,2005-12-20 On October 19 1876 a group
of leading French citizens both men and women included joined together to form an unusual group The Society of Mutual
Autopsy with the aim of proving that souls do not exist The idea was that after death they would dissect one another and
hopefully show a direct relationship between brain shapes and sizes and the character abilities and intelligence of individuals
This strange scientific pact and indeed what we have come to think of as anthropology which the group s members helped to
develop had its genesis in aggressive evangelical atheism With this group as its focus The End of the Soul is a study of
science and atheism in France in late nineteenth and early twentieth centuries It shows that anthropology grew in the
context of an impassioned struggle between the forces of tradition especially the Catholic faith and those of a more
freethinking modernism and moreover that it became for many a secular religion Among the adherents of this new faith
discussed here are the novelist Emile Zola the great statesman Leon Gambetta the American birth control advocate Margaret
Sanger and Arthur Conan Doyle whose Sherlock Holmes embodied the triumph of ratiocination over credulity Boldly argued
full of colorful characters and often bizarre battles over science and faith this book represents a major contribution to the
