Dr. Mochtar Riady Membangun Bangsa dan Negara Melalui Pendidikan

Dr. Mochtar Riady bersama dengan penasehat British Council dan John Riady dalam acara Grand Launching UPH Medan

Grand Launching Universitas Pelita Harapan (UPH) Medan yang diselenggarakan di Hotel Aryaduta Medan pada hari Sabtu (26/04) dihadiri oleh 540 peserta di antaranya ialah ketua yayasan, orangtua calon mahasiswa, calon mahasiswa, kepala sekolah SMA, pemerintah setempat, dan juga *general public*.

Pada acara *launching* tersebut, Mochtar Riady selaku pendiri Lippo Group menjadi pembicara kunci dengan mengangkat tema **Indonesia, Asia dan Prospek 20 Tahun ke Depan**. Menurutnya, walaupun Indonesia sering

dipuji karena pertumbuhan ekonomi (PKE) yang cukup baik, namun pada kenyataannya Indonesia masih sangat kurang pada sektor ekonominya. Ketengangan Indonesia dengan barang impor serta masalah sarana infrastruktur menjadi salah satu penyebabnya.

Menurutnya saat ini sarana infrastruktur Indonesia masih sangat kurang. Hanya Jawa dan Sumatera yang memiliki jalur kereta api, sedangkan Kalimantan dan Sulawesi sama sekali tidak memiliki sarana transportasi tersebut, sehingga ongkos distribusi barang di Indonesia menjadi mahal.

Pembangunan infrastruktur tersebut juga membutuhkan material yang harus diimpor, di mana biaya yang akan dikeluarkan tidaklah sedikit. "Semua itu menimbulkan biaya tinggi bagi industri, makanya banyak perusahaan yang tutup dan beralih ke negara berkembang lain. Makanya pembangunan infrastruktur di Indonesia sangat penting untuk menunjang perekonomian," kata Mochtar.

Indonesia tak akan menjadi negara maju jika tidak melakukan revolusi industri. Mochtar juga menyebutkan bahwa Indonesia memiliki peluang untuk melakukan revolusi industri. Pemikiran Mochtar Riady didasari oleh prinsip hidup yang dia sampaikan kepada para hadirin. "Kita harus berkontribusi untuk membangun bangsa dan negara dengan cara meningkatkan pertumbuhan ekonomi, investasi, menciptakan lapangan kerja, dan pada waktu yang bersamaan, ikut serta dalam menciptakan kesejahteraan sosial, dan kami melakukannya melalui pendidikan", katanya.

Sebagai bentuk komitmen terhadap dukungan di dunia pendidikan, pada acara tersebut, diserahkan 12 beasiswa pada siswa-siswi terbaik di Medan.

China and the 21st Century Crisis Minqi Li, 2015-10-20 The USA is widely seen as the country at the centre of the recent economic crash But will this be the case the next time the system goes into shock This book analyses how the political and economic imbalances in China will exacerbate

system collapse and how this could happen much sooner than we imagine possibly within a decade By looking at the big questions of class struggle global economic imbalances peak oil climate change and political power play Minqi Li argues that by the time of the next crisis China will be at the epicentre of these contradictions China is the last large region and source of cheap labour into which capital could expand the system is at its limits By combining this argument with issues surrounding the planet's ecological limits and the internal politics of the Chinese Communist Party Li commands a narrative of China at a pivotal and possibly apocalyptic stage

The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 480 billion in incentives in order to lure light vehicles assembly plants to their areas. This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies. As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America. Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory. This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015. In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada. This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers. In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker. Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI. It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant. Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide.
