Read the text and answer the questions 4 and 5:

William Shakespeare (1564 – 1616) was born at Stratford-upon-Avon in a house in Henley Street. This is preserved intact. His mother, Mary Arden, was one of the daughters of Robert Arden, a yeoman farmer of Wilmore: his father, John Shakespeare, was a Glover and wool dealer of good standing who held the office of Bailiff of the Borough in 1568. From the age of seven to about 14, he attended Stratford Grammar School receiving an excellent well-rounded education. At the age of 18 Shakespeare married Anne Hathaway, who was seven years his senior and three months pregnant. She was of 'yeoman' stock – her family owned a farm one mile west of Stratford in Shottery. He endured her until he could stand it no longer and fled to London to become an actor. He then became actor-manager and part-owner in the Black friars and afterwards the Globe Theatres. Shakespeare's acting career was spent with the Lord Chamberlain's Company, where he was a first-rate actor. The company was renamed the King's Company in 1603 when James succeeded to the throne. Among the actors in the group was the famous Richard Burbage. The partnership acquired interests in two theatres in the Southward area of London, near the banks of the Thames – the Globe and the Black friars. Shakespeare returned to Stratford for his later years where he died at the age of 52 and now lies at rest in his special grave at Holy Trinity Church.

John Laws

Jsc Suggestion All Book 2014:

The Constitutional Balance John Laws, 2021-01-28 In *The Constitutional Balance* Sir John Laws has left a vivid and timely commentary on one of the most pressing issues in the legal world today. The debate continues whether or not judges venture too far into issues of Government policy and whether or not there are any limits on the power of the executive and the legislature to propose and enact legislation that unduly restricts fundamental freedoms in a democratic society subject to the rule of law. Sir John Laws examines the relationship between constitutional fundamentals and values. He finds basic ideals of reason, fairness and the presumption of liberty in the common law and recognises that a democratically accountable executive and legislature must be able to make policy and enact and implement legislation to pursue social goals. The courts then interpret the laws. As Sir John puts it, 'The meeting of Parliament and the common law in the crucible of statutory interpretation is close to the core of the constitutional balance'. These fundamental values can compete with each other giving rise to tensions within and between key state institutions, in particular the executive and the judiciary. A constitutional balance between them must be found if the constitution is to function properly; each institution is to understand the proper extent and limits of its authority and the rule of law is to be maintained. Sir John draws on his life-long experience as a barrister, judge and academic and on case law and learning to explain in vibrant and engaging terms how such a constitutional balance might be achieved.
