## **Nadav Kander Dust:**

**Nadav Kander** Nadav Kander, 2012 Nadav Kander's work is a varied interplay of influences. His restrained and articulate compositions have a clarity and calm that draw the viewer into zen-like states. His unique skill is especially manifest in his spare and muted landscapes and his straight portraits. This book deals with his work *Nonhuman Photography* Joanna Zylinska, 2024-07-02 A new philosophy of photography that goes beyond humanist concepts to consider imaging practices from which the human is absent as both subject and agent. Today, in the age of CCTV, drones, medical body scans, and satellite images, photography is increasingly decoupled from human agency and human vision. In *Nonhuman Photography*, Joanna Zylinska offers a new philosophy of photography going beyond the human-centric view to consider imaging practices from which the human is absent. Zylinska argues further that even those images produced by humans, whether artists or amateurs, entail a nonhuman mechanical element: that is, they involve the execution of technical and cultural algorithms that shape our image-making devices as well as our viewing practices. At the same time, she notes that photography is increasingly mobilized to document the precariousness of the human habitat and tasked with helping us imagine a better tomorrow. With its conjoined human/nonhuman agency and vision, Zylinska claims, photography functions as both a form of control and a life-shaping force. Zylinska explores the potential of photography for developing new modes of seeing and imagining and presents images from her own photographic project *Active Perceptual Systems*. She also examines the challenges posed by digitization to established notions of art, culture, and the media. In connecting biological extinction and technical obsolescence and discussing the parallels between photography and fossilization, she proposes to understand photography as a light-induced process of fossilization across media and across time scales. **Nadav Kander**, 2000 **The Promise of Beauty** Mimi Thi Nguyen, 2024-09-20 In *The Promise of Beauty*, Mimi Thi Nguyen explores the relationship between the concept of beauty and narratives of crisis and catastrophe. Nguyen conceptualizes beauty, which she observes we turn to in emergencies and times of destruction, as a tool to identify and bridge the discrepancy between the world as it is and what it ought to be. Drawing widely from aesthetic and critical theories, Nguyen outlines how beauty, or its lack, points to the conditions that must exist for it to flourish. She notes that an absence of beauty becomes both a political observation and a call to action to transform the conditions of the situation so as to replicate, preserve, or repair beauty. The promise of beauty can then engender a critique of social arrangements and political structures that would set the foundations for its possibility and presence. In this way, Nguyen highlights the role of beauty in inspiring action toward a more just world.
