Lacan In The German Speaking World:

Lacan in the German-Speaking World Elizabeth Stewart, Richard Feldstein, Maire Jaanus, 2004-05-11 This book offers a selection of the best work on Lacan that has been published over the past ten years by RISS a Swiss journal of Lacanian studies Though focused on Lacan and Freud the collection is partly about Germany itself addressing questions of trauma historical memory politics fascism and democracy The essays range from investigations of particular art forms such as music and tragedy to clinical studies of melancholia depression anxiety and other somatic phenomena that have a symbolic or psychic dimension As a whole the book explores the breakdown of meaning and the failure of social and political structures which Lacan addresses through the category of the Real and it offers English speaking readers a variety of new perspectives on Lacan and psychoanalysis

Lacan in Italy Luca Di Gregorio, 2025-06-25 This book provides the first analysis of the reception and development of Lacanian psychoanalysis in Italy offering a comprehensive account of the relevance and contributions of Italian Lacanians It examines Italian Lacanianism through its distinctive engagement with clinical practice sociopolitical analysis and aesthetics highlighting the work of influential figures such as Sergio Benvenuto and Massimo Recalcati Lacan in Italy proposes a nuanced understanding of how Italian Lacanians reinterpret Lacan's legacy advancing an affirmative approach to the notion of the real often conceptualised in negative terms as traumatic impossible unrepresentable and unsymbolisable by emphasising its generative life affirming potential The book also fosters dialogue with Lacanian receptions across different countries and languages

Understanding Lacan, Understanding Modernism Thomas Waller, Sinan Richards, 2025-09-04 Presents the most wide ranging and in depth exploration of the influence of modernist art and literature on Jacques Lacan emphasizing the valences of Lacanian psychoanalysis for interpretations of modernism A notorious presence in French intellectual circles throughout the 20th century Lacan was personal friends with modernists such as Andr Breton and Salvador Dal and in 1923 was present at the legendary reading of Ulysses at the Shakespeare and Company bookshop by James Joyce to whom Lacan would devote a year of his seminar in 1975-76 Lacan also contributed to several Surrealist publications including the famous magazine Minotaure the inaugural edition of which featured special mention of Lacan's early work on psychosis However despite his affinity with early 20th century modernism Lacan's name is still more routinely associated with the category of so called postmodernism thus rendering the question of style and periodization somewhat out of focus Understanding Lacan Understanding Modernism asks and responds to a series of questions including Is Lacan a modernist or a postmodernist and what is the difference How significant was the influence of modernist literature and art on the development of Lacan's ideas How does our understanding of modernism change when viewed through a Lacanian lens The final section identifies key Lacanian concepts offering context and a discussion of their usage and relevance in current thought

The Later Lacan Veronique Voruz, Bogdan Wolf, 2012-02-01 This book includes essays by some of the finest practicing analysts and teachers of psychoanalysis in the Lacanian community today The

writings offer an essential introduction to the later teachings of Jacques Lacan illuminate the theoretical developments introduced by the later Lacan and explore their clinical implications with remarkable acumen Critique of Psychoanalytic Reason Dany Nobus, 2022-04-27 The highly arcane wisdom produced by the French psychoanalyst Jacques Lacan is either endlessly regurgitated and recited as holy writ by his numerous acolytes or radically dismissed as unpalatable nonsense by his equally countless detractors Contrary to these common strictly antagonistic yet uniformly uncritical practices this book offers a meticulous critique of some key theoretical and clinical aspects of Lacan's expansive oeuvre testing their consistency examining their implications and investigating their significance In nine interrelated chapters the book highlights both the flaws and the strengths of Lacan's ideas in areas of investigation that are as crucial as they are contentious within as well as outside psychoanalysis Drawing on a vast range of source materials including many unpublished archival documents it teases out controversial issues such as money organisational failure and lighthearted gay thinking and it relies on the highest standards of scholarly excellence to develop its arguments At the same time the book does not presuppose any prior knowledge of Lacanian psychoanalysis on the part of the reader but allows its readership to indulge in the joys of in depth critical analysis trans disciplinary creative thinking and persistent questioning This book will appeal to researchers and students alike in psychoanalytic studies and philosophy as well as all those interested in French theory and the history of ideas Cinema, Suffering and Psychoanalysis Laura Stephenson, 2023-12-14 Cinema Suffering and Psychoanalysis explores psychological disorder as common to the human condition using a unique three angled approach psychoanalysis recognises the inherent suffering encountered by each subject due to developmental phases psychology applies specific categorisation to how this suffering manifests cinema depicts suffering through a combination of video and aural elements Functioning as a culturally reflexive medium the six feature films analysed including Black Swan 2010 and The Machinist 2004 represent some of the most common psychological disorders and lived experiences of the contemporary era This book enters uncharted terrain in cinema scholarship by combining clinical psychology's Diagnostic and Statistical Manual Five DSM V to organise and diagnose each character and psychoanalysis to track the origin mechanism and affect of the psychological disorder within the narrative trajectory of each film Lacan's theories on the infantile mirror phase the Imaginary and the Symbolic and Kristeva's theories on the Real the big Other and the Event and Kristeva's theories on abjection and melancholia work in combination with the DSM's classification of symptoms to interpret six contemporary pieces of cinema By taking into consideration that origin mechanism affect and symptomatology are part of an interconnected group this book explores psychological disorder as part of the human condition something which contributes to and informs personal identity More specifically this research refutes the notion that psychological disorder and psychological health exist as a binary instead recognising that what has traditionally been pathologised may instead be viewed as variations on human identity
