Lake Wobegon Days By Garrison Keillor Viking September 15 1985:

The People of the Truth Robert E. Webber, Rodney Clapp, 2001-02-06 In this provocative book a prominent theologian and a leading Christian editor speak to all Christians who have grown mistrustful of the church's involvement in religious political power plays and are seeking the way home Robert E. Webber and Rodney Clapp examine the dilemma so many Christians face what to do if you are an enthusiast for neither the New Right nor the Old Left but still take seriously the church's social and political responsibility *People of the Truth* offers a biblical solution to this perplexing question The authors show how American Christians have come to depend on the nation rather than the church as their primary instrument of social change and communal influence They call for the church to move beyond the dead end of civil religion to affirm the authentic role of the worshipping community in effecting social change The church should dare to lay down its life the authors write to give up its ill begotten political leverage to turn aside from success and stop counting heads or dollars to stand at the side of forgotten poor and oppressed to be a sign and a witness of humanity's insufficiency and God's all sufficiency Drawing upon the works of many esteemed theologians and historians the authors trace the growth of Christianity and offer a fresh approach to the history of the church in the world They reveal how the church's identity and vision have become confused how they can be recovered and how Christians by living out their distinctive story as a worshipping community can heal society's ills *People of the Truth* provides concrete examples of how the church by realigning itself with its Christ centered mandate can effectively respond to such urgent problems as poverty drug abuse violence pornography AIDS and the ever present threat of nuclear war Here is at once a summons and a guide for the church to become in fact what it has always been ideally the only people charged with proclaiming this Christ a people of the truth *Sharing the Dream* Dominic Pulera, 2004-10-20 White males 100 million strong constitute approximately 35 percent of the U.S. population a percentage that declines slightly each year They matter very much to discussions of race ethnicity and gender in the US due to their numbers and the enormous influence they have wielded and continue to wield In this highly original and readable work Dominic Pulera offers the broadest and most balanced treatment of the white male experience in America to date He contends that virtually all white males are sharing the American dream with women and people of color in response to the nation's changing demographics and the multicultural mindset that informs policies and attitudes in our nation Some white males are sharing the dream voluntarily others are doing so involuntarily The author also explores the heterogeneity of white male America taking into account such factors as age ethnicity ideology social class regional background occupational status and sexual orientation This timely work relies on a broad range of sources including extensive field research and hundreds of interviews along with the best primary and secondary sources available It includes original historical treatments discussion of contemporary dynamics and comparative material that takes into account the experiences of peoples in other countries In doing so Pulera places white males in the context of America's ongoing transition from a predominantly white

country to one where people of color are increasingly numerous and consequently becoming more visible Dominic J Pulera is an independent scholar who lectures and writes about issues related to race ethnicity and gender In the wake of his first book *Visible Differences Why Race Will Matter to Americans in the Twenty First Century* he spoke at 13 universities on 4 continents and appeared on a one hour segment of Book TV C Span He has been a frequent guest on radio and television programs in Atlanta Baltimore Chicago Detroit Los Angeles Philadelphia and Washington D C **Innocents Abroad**

Jonathan ZIMMERMAN,2009-06-30 Until the early twentieth century teachers went abroad with assumptions of their own superiority But by the mid twentieth century they became far more self questioning about their social assumptions their educational theories and the complexity of their role in a foreign society Drawing on extensive archives of teachers letters and accounts Zimmerman s narrative explores the teachers shifting attitudes about their country and themselves in a world that was more unexpected than they could have imagined **Major 20th-century Writers** ,1991 **Gist** Michael W.
