Matric Business Studies Exam 2014:

The Global Testing Culture William C. Smith, 2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences

Twenty Years of Education Transformation in Gauteng 1994 to 2014 Felix Maringe, Martin Prew, 2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the books chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Educations present and past We leave the reader to decide to what extent the GDE has fulfilled its educational

mandate over the last 20 years ICICKM 2016 - Proceeding of the 13th International Conference on Intellectual Capital Knowledge Management & Organisational Learning Scott Erikson, Helen Rothberg, Proceedings of the 13th International Conference on Intellectual Capital Knowledge Management Organisational Learning held at Ithaca College NY USA on 16 17 Septemeber 2016 **Science Education in Canada** Christine D. Tippet, Todd M. Milford, 2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada s successes The book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience **International Handbook on Education in Southeast Asia** Lorraine Pe Symaco, Martin Hayden, 2021-12-23 This International Handbook provides a detailed account of the education systems of 11 Southeast Asian nations including Brunei Darussalam Cambodia Indonesia Lao People s Democratic Republic Malaysia Myanmar the Philippines Singapore Thailand Timor Leste and Vietnam It presents a systematic sector by sector explanation of how these national education systems deliver educational services and respond to national and international issues and challenges With 56 chapters the International Handbook is the region s most comprehensive educational reference source In the first of its chapters the editors introduce the regional context and draw attention to the distinctive characteristics of each of the 11 systems Southeast Asia representing 8.5% of the world s population is as dynamic as it is diverse The International Handbook

charts progress and establishes a benchmark for documenting future developments It also provides a stepping off point for more detailed investigations of decision making processes and outcomes across the 11 national education systems

New Models for Technical and Vocational Education and Training Makgato, Moses, Afeti, George, 2020-12-18 Technical and vocational education and training at technical schools are major contributing factors in combating poverty unemployment and inequality The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace As the Fourth Industrial Revolution continues to create more radical changes in the labor market experts are calling for a reform of education including vocational education and training and adult and professional education New Models for Technical and Vocational Education and Training is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students chances of employability and entrepreneurship in Industry 4.0 The book explores knowledge in respect to workforce preparation digital skills development teaching and learning of TVET flexibility and articulation of TVET to respond to work integrated learning and reskilling and upskilling to avoid skill mismatches It is ideal for TVET schools academicians curriculum designers managers training officers administrators vocational professionals researchers and students

13th International Conference on Intellectual Capital Knowledge Management & Organisational Learning , **The Past, Present, and Future of Higher Education in the Arabian Gulf Region** Awad Ibrahim, Osman Z. Barnawi, 2022-08-29 This edited volume contributes a novel understanding of the past present and future of higher education across the six countries that make up the Gulf Cooperation Council GCC Against the backdrop of intense political ideological and epistemological disruptions across the Arabian Gulf Region over the last two decades this volume adopts critical comparative perspectives in order to chart the history present day and future realities of higher education in Saudi Arabia the United Arab Emirates Oman Qatar Bahrain and Kuwait By focusing on dynamics relating to neoliberalism and using the notions of tensionality and locality to situate topics such as curricula policies practices the volume engages with current discourses controversies and themes such as the internationalization and marketization of higher education in these countries In doing so the book offers a theoretical framework to enable greater understanding of the contemporary functioning of higher education in the Arabian Gulf Region This text will benefit scholars academics and students in the fields of higher education and international and comparative education more broadly Those involved with educational policy and politics and Middle Eastern studies in general will also benefit from this volume
