Lahsa 20homeless Report:

Homelessness in Los Angeles County Robert B. Flores, 2021 Throughout California and major urban centers across the United States the country is experiencing unprecedented levels of homelessness In Los Angeles County specifically leaders and public agencies alike are scrambling to find solutions to this major source of contention An unstable housing market in addition to the lack of mental health and substance abuse treatment have been linked to the high increase in rates of homelessness In the last decade Los Angeles County has witnessed a sharp increase in homeless rates According to the Los Angeles County Homeless Services Authority LAHSA there are over 66 000 homeless individuals in Los Angeles County 2020 Urban centers like San Francisco Los Angeles and San Diego are facing ever challenging obstacles to tackle this complex problem Some researchers argue that one of the root causes is the lack of affordable housing Others argue that mental health and substance abuse are the driving force behind the homeless epidemic This paper seeks to identify both of the major factors contributing to homelessness and also potential solutions It also seeks to critique current policies that have exacerbated the problem and other policies that have failed The research study proposed will incorporate a quantitative method in its design The proposed study can be best described as explanatory research intended to better understand homelessness in Los Angeles County The study will use a self reported questionnaire for a non numerical understanding of the phenomenon It will incorporate quantitative data to better capture the personal attributes of the homeless This type of data is generally difficult to capture Therefore this study s strength is its ability to gather data that would otherwise be strenuous to capture In the last several years the state of California and the city and county of Los Angeles have passed new legislation that has directly or indirectly affected homelessness The proposed study seeks to make a link between failed policies and the increase in homelessness Homelessness has increased 13% in the last year LAHSA 2020 Clearly legislation like Measure HHH has had little impact on Homelessness Lastly the study may point to future directions in public policy development and implementation By studying the data captured legislators can consider the hurdles the homeless population faces

African American Homelessness in Los Angeles Tammy Tobin, 2022 In 2019 a report published by the Los Angeles Housing Services Authority LAHSA the regional planning body that coordinates housing and services for unhoused people in Los Angeles County raised awareness of the disparity in the numbers of the African American unsheltered homeless population compared to the entire population of African Americans in Los Angeles The study indicated that one of the causes of the disparity is structural racism Since the publishing of LAHSA s report studies of the mandated assessment tools used to decide who receives housing assistance and supportive services have raised questions about inequities embedded in the assessment tools that may further the problem of structural racism for an already marginalized group

Los Angeles Homeless Services Authority (LAHSA) Homelessness Prevention Program Evaluation Cristina Lorenzo, 2021 Homelessness has been a problem in Los Angeles County for some time now Historically efforts to end homelessness have

been directed toward the chronically homeless those who have repeatedly experienced homelessness due to a disabling condition While policymakers have addressed homelessness by focusing on those who are in more need less funding is being directed toward prevention and early intervention Not until five years ago funding increased for homeless prevention services In an effort to demonstrate the importance and impact of homeless prevention strategies this graduate project conducted an evaluation on Los Angeles Homeless Services Authority s LAHSA Homelessness Prevention Program using a logic model framework literature review of existing research on homelessness and published outcome studies on homeless prevention practices LAHSA is a leading agency in Los Angeles County committed to ending homelessness The objective was to understand how the program components are supporting the improvement of housing outcomes among program participants Results for this program evaluation determined that the program components selected were consistent with effective strategies evaluated by published outcome studies and are supporting the improvement of housing outcomes among program participants

The Complexities of Homelessness in American Society Particularly in Los Angeles County Liliya Mirzakhani,2022 Homelessness is becoming a bigger issue every year in the United States particularly in Los Angeles County Unstable housing markets lack of treatment facilities for mentally ill and substance abuse has been a big cause of the rise of homelessness Flores 2021 Neglect childhood trauma sexual abuse a poor relationship with parents losing a job and mental health issues are a few reasons that contribute to homelessness Study shows that 50% of homeless may have experienced physical abuse and a third reported sexual abuse which can contribute to mental illnesses A new homeless count release in 2022 by LAHSA shows a slowing down in homeless growth compared to the 2020 results The results indicated that there were approximately 69 144 homelessness in Los Angeles County a 4 1% increase since 2020 LAHSA 2022 This study is a qualitative analysis and previous peer reviewed data and research was used to conduct this research Sites such as the university resources google scholars JSTOR were all utilized for the research More fundings and organizations are being put into the homeless issue each year Organizations and agencies such as the HUDs CoC NOFO National Alliances Department of Housing and Urban Development are fighting the homeless issue U S Department of Housing and Urban Development 2022 Policymakers have been more concentrated to address homelessness by focusing on homeless in need rather than trying to understand and fund the programs that concentrate on prevention and early intervention Lorenzo 2021
