L'internationale Situationniste Anna Trespeuch:

With and Against Dominique Routhier, 2023-10-24 The little known story of the Situationist International's struggle against the automation of everyday life. No other art movement has so profoundly influenced radical politics as the Situationist International. But beyond the clichés about its purported leader Guy Debord, the *Society of the Spectacle*, *dérive* and *détournement* lies a more complex story about key historical shifts in the composition of capital, work, labor, art and revolutionary theory during the 1950s and 60s. *With and Against* reframes the history of the Situationist International as a struggle to come to terms with the then emerging ideologies of cybernetics and automation. Through each of the book's four chapters, Dominique Routhier dissects Situationist pamphlets, documents, artworks and objects that refract elements of a cybernetic hypothesis, the theoretically hyperbolic belief that technological progress, computers and automation make class struggle and the idea of revolution obsolete. With equal attention to aesthetic detail and to the broader contours of political economy, this book serves as a critical intervention in art history as well as a call to reconsider more broadly the contemporary lessons of the most political of all artistic avant-gardes.

Situationist International Anthology, 2024-10-08 The Situationist International Anthology is the most comprehensive and accurately translated collection of situationist writings in English. In 1957, a few European avant-garde groups came together to form the Situationist International. Picking up where the dadaists and surrealists had left off, the situationists challenged people's passive conditioning with carefully calculated scandals and the playful tactic of *détournement*, rerouting, hijacking. Seeking a more extreme social revolution than was dreamed of by most leftists, they developed an incisive critique of the global spectacle-commodity system and of its Communist pseudo-opposition, and their new methods of agitation helped trigger the May 1968 revolt in France. Since then, situationist theories and tactics have continued to inspire radical currents all over the world. This volume presents a rich variety of articles, leaflets, graffiti and internal documents ranging from experiments in psychogeography to lucid analyses of the Watts riot, the Vietnam War, the Prague Spring, the Chinese Cultural Revolution and other crises and upheavals of the sixties. For this new edition, all the translations have been fine-tuned and the bibliography has been updated to include comments on dozens of newer books by and about the situationists.

The Situationist International Alastair Hemmens, Gabriel Zacarias, 2020-04-20 From its foundation in 1957 to its self-dissolution in 1972, the Situationist International established itself as one of the most radical revolutionary organisations of the twentieth century. This book brings together leading researchers on the SI to provide a comprehensive critical analysis of the group's key concepts and contexts, from its relationship to earlier artistic avant-gardes, romanticism, Hegelianism, the history of the workers' movement and May 68, to the concepts and practices of spectacle, constructed situations, everyday life and *détournement*. The volume also considers historically underexamined areas of the SI, including the situation of women in the group and its opposition to colonialism and racism. With contributions from a broad range of thinkers including Anselm Jappe and Michael Löwy, this account takes a fresh look at the complex workings of a
