Course Overview This course serves as an introduction to the literary journalism major. Literary journalism is nonfiction prose that transcends the limits of daily news. While reporting is always challenging, by “literary journalism” we mean a kind of writing that goes beyond “who, what, where and when” to give the reader a richer and more detailed picture of life events. It combines an immersive approach to reporting with the techniques of fiction. Although this type of writing has older roots, it became an identifiable genre in the 1960s when Tom Wolfe dubbed it “New Journalism.” New Journalists such as Wolfe, Joan Didion, John McPhee, and Gay Talese were trailblazers in the field. Today, literary journalism appears in periodicals such as The New Yorker, The Atlantic Monthly, Esquire and Harper’s Magazine, as well as in the magazines or literary supplements of many major newspapers. Literature and Learning Stefan Collini, 2025-03-05 The study and teaching of English literature is generally regarded as one of the central disciplines in the modern university yet for much of its history it struggled to gain academic legitimacy and was frequently derided as a soft option Its early professors responded by emphasizing its scholarly character foregrounding philology and literary history in ways that marked the syllabus far into the twentieth century Stefan Collini provides here the first full account of the discipline's development from its late eighteenth century beginnings up to the early 1960s Paying special attention to institutional settings he challenges numerous assumptions about the character of universities in the nineteenth and early twentieth centuries From the detailed exploration of syllabuses exam papers and other institutional records the impact of literary criticism is revealed to be later and more partial than is commonly assumed Rather than seeing the early teaching of English literature as a substitute for religion or a means to soften class conflict Collini emphasizes the role of ideals of learnedness and scholarship as well as of external factors such as opportunities for employment in the civil service and secondary school teaching There are full discussions of the parts played by such figures as John Churton Collins A C Bradley George Saintsbury and Walter Raleigh together with sceptical analyses of the decisive significance usually attributed to Matthew Arnold T S Eliot I A Richards and F R Leavis Separate chapters are devoted to neglected aspects of the story such as the role of Classics the importance of the subject for women's higher education and the connections with English teaching in schools Drawing on extensive use of institutional archives and records as well as the writings of contemporary participants the book offers a vivid and wide ranging history of English as discipline and its centrality across academic literary cultural and educational life over the past two hundred years as well as a resounding testament to its continued importance and relevance today
