Beginners User Guide Alexis Rodríguez,2021-09-25 The new iPhone 13 series is an improvement over previous versions It uses 3d mapping and other technology to create a curved screen which seems to sit in the palm of the hand This seems to be the technology from Apple to solve the problem of not being able to fit the entire screen in the bezel However due to the new design they have changed the volume rocker and the headphone jack However it s still a great phone and still beats every other phone on the market One of the cool things they have is the ability to put your phone into a reverse video so you can see the camera lens when taking photos This will be good for when the time comes that you are having a night time engagement shoot and the lighting in the room isn t good enough They also have a feature called Face ID The feature will

automatically identify who the person is and will unlock the phone so the person doesn't have to unlock the phone with their passcode. The device comes with a 64 GB model.
