4. You will be determining which of three substances – milk, yogurt, or oatmeal – will work best to defend Earth from a zombie attack. Which macromolecule(s) should NOT be present in the food you choose to defeat the zombies? Explain.

Simple sugars should not be present in the food chosen, because it will cause the zombies to grow rapidly.

My History Lab Answer Key:

Engaging the Past Elizabeth George, 2024-02-14 *Engaging the Past* Action and Interaction in the History Classroom provides practical steps toward using engaging strategies in the classroom to teach students to think historically. These strategies include an approach developed by the author called The You Decide Lecture and innovative ways to use board games and role playing games in the history classroom. The goal is not simply to add window dressing to fundamentally dull lessons but rather to re-examine how teachers think about students as learners of history. This book follows the growing trend within historical pedagogy to care less about content coverage and more about deep engagement student learning and the importance of historical thinking. The students in our classrooms today are the history teachers of tomorrow and awakening them to the exciting complexities of the past is critical to keep the study of history thriving. **Democracy's Data** Dan Bouk, 2022-08-23 ONE OF THE NEW YORK TIMES BOOK REVIEW'S 100 NOTABLE BOOKS OF 2022 From the historian Dan Bouk a lesson in reading between the lines of the U.S. census to uncover the stories behind the data. The census isn't just a data collection process; it's a ritual and a tool of American democracy. Behind every neat grid of numbers is a collage of messy human stories you just have to know how to read them. In *Democracy's Data* the data historian Dan Bouk examines the 1940 U.S. census uncovering what those numbers both condense and cleverly abstract: a universe of meaning and uncertainty of cultural negotiation and political struggle. He introduces us to the men and women employed as census takers bringing us with them as they go door to door recording the lives of their neighbors. He takes us into the makeshift halls of the Census Bureau where hundreds of civil servants not to mention machines labored with pencil and paper to divide and conquer the nation's data. And he uses these little points to paint bigger pictures such as of the ruling hand of white supremacy, the place of queer people in straight systems and the struggle of ordinary people to be seen by the state as they see themselves. The 1940 census is a crucial entry in American history: a controversial dataset that enabled the creation of New Deal era social programs but that also with the advent of World War Two would be weaponized against many of the citizens whom it was supposed to serve. In our age of quantification *Democracy's Data* not only teaches us how to read between the lines but gives us a new perspective on the relationship between representation, identity and governance today. **Crazy Ex-Ghoulfriend** Angela Roquet, *A zombie at prom*. What could go wrong? Janie Parker is in love with the boy next door but he's dating Miss Popular. That is until she wraps her car around a tree and bites the dust. Just when things settle down and Janie thinks that she might have a shot at going to prom with the boy next door, Miss Popular comes back from the grave and she's one crazy ex-ghoulfriend. **Crime Lab Report** John M.
