Myanmar The Dynamics Of An Evolving Polity:

Myanmar David I. Steinberg, 2015 What issues will Myanmar need to address as it moves beyond the immediate complexities of a transition from an authoritarian state to a more pluralistic polity How will the new government navigate the challenges some new some old of increasing public participation persistent coercive forces economic transformation ethnic tensions varying conceptions of the role of law and more The authors of this forward looking volume offer a careful timely analysis of the kaleidoscopic array of changes occurring in Myanmar and consider the potential long term impact of those changes for both the country and the region **Crafting Parliament in Myanmar's Disciplined Democracy**

(2011-2021) Renaud Egretteau, 2022 This volume offers the most significant analysis of how parliament re emerged in Myanmar in the span of a post junta decade 2011 2021 *Myanmar's Peace Process and the Role of Middle Power States* Chiraag Roy, 2022-06-06 This book explores middle power engagement in peace processes through the cases of Australian Japanese and Norwegian engagement in Myanmar's peace process a core event in Myanmar's contemporary recent political history The book asks to what extent and how middle powers have engaged in Myanmar's peace process as a form of peacemaking entrepreneurship Underpinning this study is a concern for the lack of clarity surrounding the middle power concept Traditional conceptions of middle powers steeped in idealist thinking locate such states as capable peacemakers without elucidating the motivations that drive middle powers to peacemaking beyond mere status seeking Drawing on recent fieldwork interviews from within Myanmar as well as political economy literature the author scrutinises this notion while concomitantly offering an incisive analysis of Myanmar's peace process Based on the Myanmar context the book argues that middle powers can better be conceptualised as peace making entrepreneurs as actors that use peacemaking as an instrumental tool to cement their status and craft an image which they can then trade upon to secure additional namely commercial benefits Significantly this notion of peacemaking entrepreneurship problematises core theoretical assumptions of middle powers as capable peacemakers presenting implications for future scholarship on middle powers A timely addition as Myanmar continues to grapple with its own future the book is located within the fields of International Relations and Development Studies It will be of interest to researchers studying Asian Studies Peace and Conflict Studies and Myanmar Politics

A Region of Regimes T. J. Pempel, 2021-09-15 A Region of Regimes traces the relationship between politics and economics power and prosperity in the Asia Pacific in the decades since the Second World War This book complicates familiar and incomplete narratives of the Asian economic miracle to show radically different paths leading to high growth for many but abject failure for some T J Pempel analyzes policies and data from ten East Asian countries categorizing them into three distinct regime types each historically contingent and the product of specific configurations of domestic institutions socio economic resources and external support Pempel identifies Japan Korea and Taiwan as developmental regimes showing how each then diverged due to domestic and international forces North Korea Myanmar and the Philippines under Marcos

comprise rapacious regimes in this analysis while Malaysia Indonesia and Thailand form ersatz developmental regimes Uniquely China emerges as an evolving hybrid of all three regime types A Region of Regimes concludes by showing how the shifting interactions of these regimes have profoundly shaped the Asia Pacific region and the globe across the postwar era

Citizenship in Myanmar Ashley South, 2018-05-24 Myanmar is going through a period of profound and contested transition The country has experienced widespread if sometimes uneven reforms including the start of a peace process between the government and Myanmar Army and some two dozen ethnic armed organizations which had long been fighting for greater autonomy from the militarized and Burman dominated state This book brings together chapters by Burmese and foreign experts and contributions from community and political leaders who discuss the meaning of citizenship in Myanmar Burma The book explores citizenship in relation to three broad categories issues of identity and conflict debates around concepts and practices of citizenship and inter and intra community issues including Buddhist Muslim relations This is the first volume to address these issues understanding and resolving which will be central to Myanmar s continued transition away from violence and authoritarianism Historical Dictionary of Burma (Myanmar) Donald M. Seekins, 2017-03-27 Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma s president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country s pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people s security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country s religious minorities especially Muslims Today Burma s prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current developments but also Burma s over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through achronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture **NGOs Mediating Peace** Julia Palmiano Federer, 2023-12-28 This book explores the role of nongovernmental mediators in promoting inclusive peace to negotiating parties in Myanmar s Nationwide Ceasefire Agreement NCA negotiations from 2011 2015 The influx of NGO mediators directly engaging with the negotiating parties and

promoting the inclusivity norm coupled with the salience of discourse around all inclusiveness at the end of the NCA process forms a puzzle around the agency that NGO mediators wield in influencing political outcomes despite their lack of political and material leverage The author argues that NGO mediators can effectively promote norms using mediation processes as a site of norm diffusion Bespoke international conflict resolution NGOs have become key mediation actors within the last three decades through creating the niche world of private diplomacy and acting as norm entrepreneurs at the same time As informal third parties these NGO mediators directly engage with politically sensitive actors or convene unofficial peace talks As NGOs they are part of an epistemic community of mediation practice professionalizing the field and producing knowledge on what peace mediation is and what it ought to be This dual identity as both NGOs and mediators nicely sets them up with a unique agency to promote and diffuse norms These norms often reflect the liberal peacebuilding paradigm promoted from the Global North such as inclusion gender equality and transitional justice with the view that these norms are not ends in themselves but as necessary ingredients for effective mediation The book further questions whether NGOs should promote norms in the first place The outcome of the NCA process presents a critical and cautionary tale of promoting a presumed universal norm into a given locale and expecting a certain outcome without understanding how an external norm interacts with existing normative frameworks The book illustrates that while NGO mediators do possess the normative agency to effectively promote norms to negotiating parties my empirical research analyses how their promotion of the inclusivity norm to the negotiating parties in Myanmar's NCA paradoxically resulted in exclusionary outcomes only half of the armed groups in the ethnic armed groups negotiating bloc signed and civil society was effectively crowded out from meaningful participation despite lofty rhetoric This is an open access book *Political Participation in Asia* Eva Hansson, Meredith L. Weiss, 2017-10-16 A combination of economic transformation political transitions and changes in media have substantially if incrementally altered the terrain for political participation globally particularly in Asia home to several of the most dramatic such shifts over the past two decades This book explores political participation in Asia and how democracy and authoritarianism function under neoliberal economic relations It examines changes that coincide seemingly perversely with a participation explosion with mass street protests and occupations energetic online contention movements of students and workers mobilization for and against democracy and more Organized thematically in three parts political participation in a post democratic context changes in the scope and character of political space and the policing of that space this book analyzes economic regime and media shifts and how they function in tandem and both within and across states Closely integrated comparative and theoretically driven this book will be of interest to scholars and practitioners in the fields of civil society contentious politics or social movements democratization political economy development media and communications political geography sociology comparative politics and Asian politics *Myanmar's Mountain and Maritime Borderscapes* Su-Ann Oh, 2016 This edited volume adds to the literature on Myanmar and its borders by drawing attention to the

BOOK JACKET **Constitution, Government and Politics in India** Biswaranjan Mohanty, 2009

ABOUT THE BOOK Before 1947 India was a dependency of the United Kingdom and consisted of British India and the Princely States. It encompassed the entire area which now forms the four countries of India, Pakistan, Myanmar, and Bangladesh. India inherited a dismal economy from the British rulers at the time of Independence in 1947. Owing to poor technological and scientific capabilities, industrialization was limited and lop-sided. The agricultural sector exhibited features of feudal and semi-feudal institutions, resulting in low productivity. The political system was fragmented and national unity was in danger. Various factors were responsible for political problems which were threatening the very existence of India as a nation. The Constitution of India, adopted on November 26, 1949, became operative on January 26, 1950. It provides for two layers of Government: one at the Central level and the other at the level of the States. A federal polity of this kind requires division of powers and responsibilities between the Centre and the States. Hence, the Constitution describes in detail the legislative powers and functions of the two tiers of Government. It is the fountain head of all legislations. India, with a population of more than one billion, is the world's largest democracy. Indian polity consists of three main branches: namely, the executive, legislature, and the judiciary, along with subsidiary branches like political parties, statutory institutions, etc. This book presents a comprehensive description and analysis of the constitution system of government and dynamics of politics in India, a geographically and demographically vast country inhabited by people professing different religions, speaking a variety of languages, and adhering to diverse socio-cultural ethos.

This new edition of *Myanmar: Politics, Economy and Society* provides a sophisticated yet accessible overview of the key political, economic, and social challenges facing contemporary Myanmar and explains the complex historical and ethnic dynamics that have shaped the country. Thoroughly revised, the book analyses the context and tragic consequences of the military coup in February 2021 and the COVID-19 pandemic. With clear and incisive contributions from the world's leading Myanmar scholars, this book assesses the policies and political reforms that have provoked contestation in Myanmar's recent history and driven both economic and social change. In this context, questions of economic ownership and control and the distribution of natural resources are shown to be deeply informed by long-standing fractures among ethnic and civil-military relations. The chapters analyse the key issues that constrain or expedite societal development in Myanmar and place recent events of national and international significance in the context of its complex history and social relations. The book provides detailed analysis of the coup which overturned a decade of political and economic reforms and threw the country into chaos. It explains the drivers for the coup, how it has impacted on the country, and the future prospects for accountability and justice. Filling a gap in the market, this research textbook and primer will be of interest to upper undergraduates, postgraduates, and scholars of Southeast Asian politics, economics, and society, and to journalists and professionals working within governments, companies,

Rebel Politics David Brenner, 2019-10-15 *Rebel Politics* analyzes the changing dynamics of the civil war in Myanmar one of the most entrenched armed conflicts in the world Since 2011 a national peace process has gone hand in hand with escalating ethnic conflict The Karen National Union KNU previously known for its uncompromising stance against the central government of Myanmar became a leader in the peace process after it signed a ceasefire in 2012 Meanwhile the Kachin Independence Organization KIO returned to the trenches in 2011 after its own seventeen year long ceasefire broke down To understand these puzzling changes Brenner conducted ethnographic fieldwork among the KNU and KIO analyzing the relations between rebel leaders their rank and file and local communities in the context of wider political and geopolitical transformations Drawing on Political Sociology *Rebel Politics* explains how revolutionary elites capture and lose legitimacy within their own movements and how these internal contestations drive the strategies of rebellion in unforeseen ways Brenner presents a novel perspective that contributes to our understanding of contemporary politics in Southeast Asia and to the study of conflict peace and security by highlighting the hidden social dynamics and everyday practices of political violence ethnic conflict rebel governance and borderland politics
