Salmons, Wim Vandebussche, 2025-04-21 Targeting a full range of students and scholars this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter individual and societal language contact as well as the dynamics of multidisciplinary language contact studies Fueled by a wealth of data from a rich variety of contact situations its geographically balanced case studies are governed by the triangulation between a focus on language structure and change a sincere drive of sociopolitical and academic agency and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges **Gaffney's Local Government in South Africa**, 2007 Imagining Multilingual Schools Ofelia García, Tove Skutnabb-Kangas, Maria E. Torres-Guzmán, 2006 This book brings together visions and realities of multilingual schools throughout the world in order to examine the pedagogical socioeducational and sociopolitical issues that impact on their development and success The chapters describe and analyze pedagogical instructional and policy efforts to develop multilingualism through school with different targeted populations immigrant students indigenous peoples traditional minorities majorities and multiethnic multilingual groups Each contribution many written by well known scholars in the field of bilingual and multilingual education affirms the desirability of multilingualism as a societal resource and as a right of individuals while acknowledging the social economic and political differences that make the acquisition of multilingualism easy for some and difficult for others And yet the book focuses on the school as a place of promise and resistance having the potential to preserve recover and expand the world s linguistic diversity The introduction written by the co editors identifies the conceptual threads that are developed throughout the chapters But the chapters themselves remind us of the importance of local conditions despite the global pressures of the 21st century in imagining and creating multilingual educational spaces *Finweek*, 2006-11
