Limpopo Life Sciences PSeptember 2014:

Flows and Practices Lyla Mehta,Bill Derman,2017-05-19 For the past two decades Integrated Water Resources Management IWRM has been the dominant paradigm in water resources This book explores how ideas of IWRM are being translated and adapted in Mozambique South Africa Tanzania Uganda and Zimbabwe Grounded in social science theory and research it highlights the importance of politics history and culture in shaping water management practices and reform and demonstrates how Africa has clearly been a laboratory for IWRM While a new cadre of professionals made IWRM their mission we show that poor women and men may not have always benefitted In some cases IWRM has also offered a distraction from more critical issues such as water and land grabs privatisation the negative impacts of water permits and a range of institutional ambiguities that prevent water allocations to small and poor water users By critically examining the interpretations and challenges of IWRM the book contributes to improving water policies and practices and making them more locally appropriate in Africa and beyond

The Political Economy of Energy in Sub-Saharan Africa Lucky E. Asuelime,Andrew Emmanuel Okem,2017-09-29 A deepening ecological crisis is rearing its head in sub Saharan Africa as it faces a myriad of challenges in regards to the development of its energy sector The dirty now and clean up later approach to the environment has a strong appeal particularly because it is often thought of as the last place to try to edge in another priority especially if that priority is perceived by many to be an economic luxury Asuelime and Okem bring together a team of specialist contributors who investigate to what extent sub Saharan Africa has displayed foresight or politico economic integrity The book shows the state s ability to meet the demands of provision of energy in sub Saharan Africa has led to heavy investments in infrastructure transmission and distribution of energy to the citizens However the inefficiencies corruption and unhealthy bureaucratic challenges that accompany this have led urgent problems which will be thoroughly explored in this book The Political Economy of Energy in Sub Saharan Africa will be of interest to students and scholars of African Studies Development Studies political science and environment

Policy and Practice Challenges for Equality in Education Neimann, Theresa,Felix, Jonathan J.,Shliakhovchuk, Elena,Hindman, Lynne L.,2021-09-10 Well educated populations are important aspects of any contemporary society as education increases national and global development and the positive expansion of communities to participate actively in civil matters also increases Educational equality is based on the principles of administrative competence and fairness of access and distribution of resources opportunities and treatment which ensures success for every person Ensuring equal access to quality education requires addressing a wide range of persistent inequalities in society and includes a stronger focus on how different forms of inequalities intersect to produce unequal opportunities or outcomes that affect marginalized and vulnerable groups Policy and Practice Challenges for Equality in Education takes a multifaceted look at issues of equality and inequality in education as related to policy practice resource access and distribution As such this book explores the potential practices in education that serve to mitigate and

transform unproductive practices which have left societies scarred by social and educational inequalities The chapters provide a critical analysis of the manifestations of inequalities in various educational contexts and discerns how broader social inequalities are informed by education related matters This book is ideal for sociologists administrators instructors policymakers data scientists community leaders practitioners stakeholders researchers academicians and students interested in educational equality and the unique challenges being faced worldwide

Stable Isotope Studies of the Water Cycle and Terrestrial Environments A-V. Bojar,A. Pelc,C. Lécuyer,2021-11-09 This volume is devoted to Earth surface environmental reconstructions and environmental changes that may be deciphered and modelled using stable isotopes along with mineralogical chemical sedimentological palaeontological biological and climatological methodologies The book is divided into two sections both using stable isotopes see www.geolsoc.org.uk/SP507 in various samples and phases as the main research tool The first section is devoted to studies focusing on the distribution of isotopes in precipitation groundwater lakes rivers springs tap water mine water and their relationship with terrestrial environments at regional to continental scale In relation to this the second section includes case studies from a range of continental settings investigating cave deposits stalagmites bat guano animal skeletons dinosaurs alligators turtles bivalves present and past soils palaeosols and limestones The sections focus on the interaction between the surficial water cycle and underground water storage with deposits acting as archives of short to long term climatic and environmental changes Examples from the Early Cretaceous to present time come from Europe Asia Africa North and South America

The Emerging Policy for Green Economy and Social Development in Limpopo, South Africa Agnes Musyoki,2012 This paper evaluates the emerging green economy in South Africa using ideas from the concept of sustainable rural livelihoods which are intimately connected to ecological services many developing countries It finds that African communities and governments are prioritising green economy for job creation poverty alleviation and reducing inequalities while addressing global environmental concerns What remains problematic however is how these objectives are to be achieved The paper argues that one of the key challenges in South Africa is the gap between policy and implementation of sustainable development the Millennium Development Goals and other globally driven initiatives The paper emphasises that green economy policy needs to consider poverty reduction and women s empowerment in order to promote rural sustainable development Publisher description

The African Food Environments Amos Laar,Kaleab Baye,Anna Lartey,Francis Zotor,Gershim Asiki,2023-09-05 In many respects the continent of Africa is in transition Prominent among them currently is the nutrition transition One consequence of the nutrition transition is the increase in prevalence of nutrition related non communicable diseases NCDs such as obesity type 2 diabetes cardiovascular diseases and certain cancers Although NCDs are a global public health problem the rate of increase in NCDs morbidity and mortality in some African countries is staggering This surge has been linked to modifiable environmental factors factors that facilitate the consumption of obesogenic energy dense nutrient poor foods rather than unrefined cereals fruits and

vegetables It has long been recognized that the physical and social environments in which people live work and eat are critical determinants of their health More recently there has been a greater focus on the food environment as a key determinant of health Available evidence shows that unhealthy food environments drive unhealthy diets and unhealthy diet is one of four main risk factors for NCDs **Kaapse bibliotekaris** ,2015 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957
