Universalising Healthcare in India Imrana Qadeer, K. B. Saxena, P. M. Arathi, 2021-10-20 This book provides a comprehensive overview of universal health coverage in India. Do your senators and your representative fulfill the responsibilities of government in the Constitution and vote in your favor? If that is true, they are your friends. Or do your senators and your representatives violate the Constitution and vote against your best interest? If that is true, they are your enemies. If you vote for and reelect your enemies, they will be your enemies the next two or six years. President Obama's legacy of deficit spending is characterized by average deficit spending of more than a trillion dollars annually. During those eight years, every American household went to bed each evening fifty dollars deeper in debt, regardless of how hard they worked or whether they spent any money. The national debt more than doubled during President Obama's eight years in office. Each person's share of debt increased from 30,000 to 70,000. *Regulating and Combating Money Laundering and Terrorist Financing* Nkechikwu Azinge-Egbiri, 2021-03-01 This book analytically reviews the impact of the global anti-money laundering and counter-terrorist financing (AML/CFT) framework on the compliance trajectory of a number of jurisdictions to this framework. The work begins by examining the international financial sector reform and its evolution to inculcate the global framework for AML/CFT regulations. It challenges the resulting uniform AML/CFT due to its paradoxical impact on the compliance trajectory of African countries and emerging economies (ACs/EEs). This is done through an examination of the pre-conditions for effective regulation and compliance drivers for ACs/EEs that reveals the behavioural impact of the AML/CFT standards on the bloc of countries. Through the application of agency theory, it explores the relationship between ACs/EEs on the one hand and the international financial institutions that formulate, disseminate, and facilitate compliance with the global framework for AML/CFT standards on the other. The remaining chapters review empirically the compliance pressures and resulting compliance trajectory of ACs/EEs with the AML/CFT standards. The final part of the book provides a detailed explanation of the compliance challenges of ACs/EEs and the legitimacy concerns that facilitate this. This book offers a new

direction on the impact of global AML CFT standards on ACs EEs and contributes to the understanding of the conditions under which the global standards are likely to facilitate proactive compliance within these blocs of countries As such it will be a valuable resource for academics researchers and policy makers working in this area *Green Energy and Efficiency* Alberto Ansuategi, Juan Delgado, Ibon Galarraga, 2014-11-05 Addressing the major issues associated with green energy and energy efficiency this book examines the economics of energy from the theoretical as well as applied perspectives It makes a valuable contribution to existing discussion around environment and climate change issues and provides an analysis of the socioeconomic and policy oriented aspects of this topic Each chapter is self contained and tackles the fundamental issues and latest developments of a particular sub topic Combining rigour and accessibility this book allows non specialized readers to understand the complexity of the topic and to likewise access the most relevant and up to date literature It simultaneously enables more specialized readers to broaden their understanding of complex energy topics and it provides a comprehensive overview of the cutting edge developments of the issues covered by the book This book covers important themes including regulation for green energy the promotion of green energy and efficiency the challenges and options of renewable energy and efficiency in economic sectors It is intended for researchers and postgraduates with an interest in energy climate change and environmental economics and also policymakers and energy companies **The Trade-Development Nexus in the European Union** Maurizio Carbone, Jan Orbie, 2016-03-22 This volume offers new perspectives on the evolution of the trade development nexus in the European Union against dramatic changes in the international context Without disregarding them it seeks to go beyond the controversial and extensively researched Economic Partnership Agreements EPAs In particular it focuses on the reform of the Generalised System of Preferences the negotiation of various Preferential Trade Agreements the application of trade sanctions the allegedly ambitious agendas on decent work Aid for Trade and aid untying and the implications of the changing balance of power in global economic relations Taking diverse approaches and at times reaching different conclusions contributors directly or indirectly address one or more of the three general themes of the book differentiation coherence and norms This book was published as a special issue of Contemporary Politics *Indian Coconut Journal* ,2012-05 Annual Report India.
