InterGenerate Holly Catterton Allen,2018-07-10 Leaders in Christian communities are all asking the same question How can we bring the generations back together *InterGenerate* addresses important questions of why we should bring the generations back together but even more significantly how we can bring generations back together In this edited collection ministers church leaders and Christian educators will find valuable new generational theory perspectives fresh biblical and theological insights and practical outcomes backed by current research *InterGenerate* offers important guidance on topics including intergenerational spiritual disciplines transitioning from multigenerational to intergenerational new research that focuses directly on intergenerational ministry and offers practical outcomes to implement and benefits of intergenerational ministry for the most marginalized generations An exciting and distinctive aspect of *InterGenerate* is the vast diversity of voice men and women ranging in age from millennials to baby boomers representing multiple countries and over a dozen denominations all seeking ways to become more intentionally intergenerational in their outlook and practice Intervention in Church Conflict Dorothy R. Dann,2024-04-02 This book needs to be in the hands of every pastor church leader counselor consultant mediator and leader in higher education organizations the workplace and any other place where there are two or more people having two or more opinions Its goal is to help a congregation or organization build inner resources that could stabilize life together and produce a more adequate and stable organization for the future The approach was a real lifesaver for the author who as a relatively new pastor was appointed to a church in conflict while working toward a degree in counseling Applying her studies in family systems theory and narrative therapy to congregational life she developed a model for conflict intervention in the church and workplace She claims she would have been sunk without the research coursework advisers and the fifty two hours of clinical supervision that went into it At her new appointment it was clear that members were lost hurting and hampered in using their gifts to build up the whole body Their story as a congregation was saturated with the pain of sustained conflict they longed to be reclaimed by the love of God so that they might bring the healing power of the gospel to others The intervention was highly successful Leaders began interacting in a healthy manner working together toward wholeness They had a new focus on strength not weakness on leadership and health not pathology It had changed from who has the problem to who has the motivation This change in the more emotionally healthy parts at the higher levels in the system began to produce a change in the system as a whole This book is not about quick fixes which do not exist It s about ideas not directions hope not merely well charted diagrams and encouragement not rigid rules The reader will come away with a clearer understanding of their organization as a system the power of presence what it means to be an equipping leader and will be informed as to how to exercise responsibility in effecting a cure **Catalog of Copyright Entries, Third Series** Library of Congress.
