Phil Croucher,2014-09-24 Until recently the only option for instrument rating training in Europe was a full course requiring
up to 200 hours of theoretical knowledge instruction but the Enroute and Competency Based Instrument ratings for
aeroplanes only are a part of a new approach that is supposed to make instrument flying more accessible because the
original courses were designed as part of a commercial course and were necessarily intense This book is for people who
already hold an ICAO IR and who can simply convert to the EASA version by completing the skill test and demonstrating to
the examiner during the skill test an adequate knowledge of air law meteorology and flight planning It contains all the
information needed to answer the examiner s questions plus tip and tricks not usually taught on such a basic course
