**Assessing Mathematical Literacy** Kaye Stacey, Ross Turner, 2014-11-03 This book describes the design development delivery and impact of the mathematics assessment for the OECD Programme for International Student Assessment PISA First the origins of PISA's concept of mathematical literacy are discussed highlighting the underlying themes of mathematics as preparation for life after school and mathematical modelling of the real world and clarifying PISA's position within this part of the mathematics education territory The PISA mathematics framework is introduced as a significant milestone in the development and dissemination of these ideas The underlying mathematical competencies on which mathematical literacy so strongly depends are described along with a scheme to use them in item creation and analysis The development and implementation of the PISA survey and the consequences for the outcomes are thoroughly discussed Different kinds of items for both paper based and computer based PISA surveys are exemplified by many publicly released items along with details of scoring The novel survey of the opportunity students have had to learn the mathematics promoted through PISA is explained The book concludes by surveying international impact It presents viewpoints of mathematics educators on how PISA and its constituent ideas and methods have influenced teaching and learning practices curriculum arrangements assessment practices and the educational debate more generally in fourteen countries

**Law Between Buildings** Nestor Davidson, Nisha Mistry, 2016-10-14 The rich field of urban law has thus far lacked a holistic and concerted scholarly focus on comparative and global perspectives This work offers new inroads into the global and comparative streams within urban law by presenting emerging frameworks and approaches to topics ranging from urban housing and land use to legal informality and consumer financial protection The volume brings together a group of international urban legal scholars to highlight emergent global interdisciplinary perspectives within the field of urban law particularly as they have import for comparative legal analysis The book presents a timely addition to the literature given the urgent legal issues that continue to surface in an age of rapid urbanization and globalization

English Language Learners and the New Standards Margaret Heritage, Aída Walqui, Robert Linquanti, 2020-01-15 In English Language Learners and the New Standards three leading scholars present a clear vision and practical suggestions for helping teachers engage ELL students in simultaneously learning subject area content analytical practices and language This process requires three important shifts in our perspective on language and language learning from an individual activity to a socially engaged activity from a linear process aimed at correctness and fluency to a developmental process focused on comprehension and communication and from a separate area of instruction to an approach that embeds language development in subject area activities In English Language Learners and the New Standards the authors Clarify the skills and knowledge teachers need to integrate content knowledge and language development Show how teachers can integrate formative assessment in ongoing teaching and learning Discuss key leverage points and stress points in using interim and summative assessments with ELLs Provide classroom vignettes illustrating key

practices Finally the authors explain the theories and research that underlie their vision and examine the role of policy in shaping pedagogy and assessment for ELL students

**Critical Forensic Studies** Roberta Julian,Loene Howes,Rob White,2021-12-20 This book provides a comprehensive overview of the emerging interdisciplinary field of critical forensic studies It reviews existing research and scholarship on forensic science from a critical social science perspective while forging a blueprint for further work in this area Forensic science has long captured the public imagination as evidenced by the popularity of many novels television programmes and true crime podcasts At the same time its role in the criminal justice system has been the subject of critique from scholars and practitioners in diverse fields In response the international forensic science community has become more involved in the scrutiny of its own knowledge and practices in relation to criminal justice objectives Moving beyond a discussion of forensic science as a suite of specialised scientific disciplines that aim to provide evidence to the courts Critical Forensic Studies offers critical insights relevant to a wide range of social actors in the criminal justice system Core content includes the history and public understandings of forensic science the professionalisation of forensic science forensic science as a social process crime scene examination and forensic intelligence experts and evidence in court technological advances and human rights interdisciplinary knowledge practice and research This book is essential reading for forensic and criminal justice practitioners and students across criminology sociology forensic science law and psychology

**The Struggle to Reform Our Colleges** Derek Bok,2017-08-28 Why efforts to improve American higher educational attainment haven t worked and where to go from here During the first decade of this century many commentators predicted that American higher education was about to undergo major changes that would be brought about under the stimulus of online learning and other technological advances Toward the end of the decade the president of the United States declared that America would regain its historic lead in the education of its workforce within the next ten years through a huge increase in the number of students earning quality college degrees Several years have elapsed since these pronouncements were made yet the rate of progress has increased very little if at all in the number of college graduates or the nature and quality of the education they receive In The Struggle to Reform Our Colleges Derek Bok seeks to explain why so little change has occurred by analyzing the response of America s colleges the influence of students employers foundations accrediting organizations and government officials and the impact of market forces and technological innovation In the last part of the book Bok identifies a number of initiatives that could improve the performance of colleges and universities The final chapter examines the process of change itself and describes the strategy best calculated to quicken the pace of reform and enable colleges to meet the challenges that confront them
