Memorandum For Criminology Exam Papers 2011:

Imprisoned by the Past Prof. Jeffrey L. Kirchmeier, 2014-12-31 Imprisoned by the Past Warren McCleskey and the American Death Penalty connects the history of the American death penalty to the case of Warren McCleskey By highlighting the relation between American history and an individual case Imprisoned by the Past provides a unique understanding of the big picture of capital punishment in the context of a compelling human story McCleskey's criminal law case resulted in one of the most important Supreme Court cases in U S legal history where the Court confronted evidence of racial discrimination in the administration of capital punishment The case marks the last that the Supreme Court realistically might have held that capital punishment violates the Eighth Amendment of the U S Constitution As such the constitutional law case also created a turning point in the death penalty debate in the country The book connects McCleskey's case as well as his life and crime to the issues that have haunted the American death penalty debate since the first executions by early settlers and that still affect the legal system today Imprisoned by the Past ties together three unique American stories in U S history First the book considers the changing American death penalty across centuries where drastic changes have occurred in the last fifty years Second the book discusses the role that race played in that history And third the book tells the story of Warren McCleskey and how his life and legal case brought together the other two narratives

Free Market Criminal Justice Darryl K. Brown, 2015-12-22 *Free Market Criminal Justice* explains how faith in democratic politics and free markets has undermined the rule of law in US criminal process America's unique political development characterized by skepticism of government power has restrained the state's role not only in the economic realm but also in key parts of its criminal justice systems From charging decisions through trials or guilty pleas and appeals legal safeguards against bias wrongful convictions and excessive punishment rely more on politics and laissez faire economic ideas than on enforceable rules and duties Prosecutorial discretion is checked not by legal standards but by popular elections and plea bargaining law is wholly built on a faith in unregulated markets in contrast to the systems in other common law countries that also have neoliberal economies adversarial process and high guilty plea rates This book argues that democratic and market ideas have led to more partisan prosecutors narrower duties of evidence disclosure and to a right to defense counsel that carefully accommodates preexisting wealth inequalities Most important democratic and market values have diminished the responsibility of judges and of the state itself for the accuracy and integrity of court judgments Paradoxically skepticism of government has expanded state power reduced checks on executive officials marginalized juries and contributed to record incarceration rates In contrast to recent arguments for re invigorating democracy in criminal process *Free Market Criminal Justice* argues that to strengthen the rule of law US criminal justice needs less democracy fewer market mechanisms and more law
