US Government Manual is known as the Official handbook of the Federal Government. This annual resource provides comprehensive information on the agencies of the legislative, judicial, and executive branches as well as quasi-official agencies, international organizations in which the United States participates, boards, commissions, and committees. Each agency's description consists of a list of principal officials, a summary statement of the agency's purpose and role in the Federal Government, a brief history of the agency including its legislative or executive authority, and a description of consumer activities, contracts, and grants, employment, and publications. A typical agency description includes a list of principal officials, a summary statement of the agency's purpose and role in the Federal Government, a brief history of the agency including its legislative or executive authority, a description of its programs and activities, and a Sources of Information section. This last section provides information on consumer activities, contracts, and grants, employment, publications, and many other areas of public interest. This annual reference book is an invaluable resource for anyone interested in the organization and function of the United States Federal Government agencies and quasi-agency organizations that may receive Federal appropriated funds for some of their operations. *Haiti International Monetary Fund. Western Hemisphere Dept., 2015-01-05 EXECUTIVE SUMMARY*

This is the final review under the Extended Credit Facility (ECF) arrangement. The program contributed to maintaining macroeconomic stability and there was progress on structural reforms. The authorities intend to request a successor arrangement under the ECF. A new finance minister was appointed in April; uncertainly remains on the timing of elections. Preliminary data suggest that GDP in FY2014 grew by 3.54 percent while inflation increased slightly to about 5 percent. An increase in fuel prices in October should result in fiscal savings of at least 1 percent of GDP during FY2015. The March performance criterion on net international reserves (NIR) was met, but although the deficit was lower than projected, the performance criterion on net central bank credit to the central government was missed. Downside risks are significant and include a pull back of Venezuela-related flows, a resumption of political tensions, and vulnerability to weather events. A total of SDR 1,638 million will become available upon completion of this review, bringing total disbursements under the ECF to SDR 40,950 million.

**Key Policy Recommendations**

The policy mix, in particular the adjustment going forward, should come from a lower fiscal deficit rather than from a tighter monetary policy. The FY2015 fiscal deficit should be reduced to mitigate financing risks as part of a medium-term plan to restore fiscal sustainability. The central bank should let the exchange rate adjust more to market pressures. Intervention should be parsimonious, geared at avoiding excess volatility and disorderly movements in the exchange rate; it should be guided by fundamentals in the medium term. Progress on structural reforms, including on the energy sector and on public financial management, should catalyze more donor support and is essential for supporting growth. A possible new ECF arrangement would entrench macroeconomic stability and promote policies to
