*Deutsche Bank: The Global Hausbank, 1870 - 2020* Werner Plumpe, Alexander Nützenadel, Catherine Schenk, 2020-03-05 A comprehensive history of one of the major players in the world of international finance. Over the course of its 150-year history, Deutsche Bank has established itself as a major player in the world of international finance but has also been confronted by numerous challenges that have changed the face of Europe from two world wars to the rise and subsequent fall of communism. In this major work on the bank's history, Werner Plumpe, Alexander Nützenadel, and Catherine R. Schenk deliver a vibrant account of the measures the bank undertook in order to address the profound upheavals of the period as well as the diverse and unusual demands it had to face. These included the First World War which brought the world's first period of globalization to a sudden and dramatic end but also the development of the predominantly national framework within which the bank had to operate from 1914 until the fall of the Berlin Wall in 1989. More recently, the focus has shifted back to European and global activities with Deutsche Bank forging new paths into the Anglo American capital markets business so opening another extraordinary chapter for the bank.

The Liberators of Pilsen Bryan J. Dickerson, 2018-01-14 Formed in July 1943 at Camp Chaffee, Arkansas, the 16th Armored Division was the last U.S. armored division to be activated in World War II, the last deployed to the European Theater, and the last to see combat. As the war in Europe was coming to an end, General George S. Patton chose the division to spearhead a daring advance into Czechoslovakia. In its first and only combat operation, the 16th liberated the city of Pilsen, forever endearing itself to the Czech people. Poised to continue to the capital city of Prague, the division was halted not by German resistance but by political rivalries between the Western powers and the Soviet Union. Official U.S. Army records and veteran accounts tell the story of the unit's brief two-year existence and its successful mission.
