

Topic 3: PAT (Practical assessment task)

Cell phone towers

Cell phone towers are everywhere and are built using materials to ensure stability, strength and rigidity(stiffness).

A new cell phone company has just launched an exciting new competition:

Work in groups of 2 to 4 people:

Look at cell phone towers in the area or bring pictures of towers or do research on google or you- tube to get started. Use what you know about technology to design your tower for the competition. Your tower needs to carry a heavy load in strong winds and heavy storms, so it must be rigid and strong.

Have you noticed that cell phone towers look like trees? How will you make your tower fit into the environment and not cause visual pollution?

- Sketch initial ideas. Draw two free-hand sketches in your workbooks, to show two different design ideas in 2-D. Remember to add all details to sketches.
- Write a **design brief** with specifications for a new cell phone tower. The team then decides on the best design brief for their presentation.

DESIGN AND SKETCHES

- List the **resources or materials and tools** to be used.
- Work with a partner to examine and discuss the design ideas and determine the **advantages and disadvantages** of their designs and choose the best one for their presentation.
