Situational Analysis Adele E. Clarke, Carrie Friese, Rachel S. Washburn, 2017-07-20 The Second Edition of *Situational Analysis Grounded Theory After the Interpretive Turn* offers an innovative extension of grounded theory useful in qualitative research projects that draws on interviews observations and visual narrative and historical discourse materials To engage the dense complexities of real world situations Situational Analysis SA braids together Strauss s ecological social worlds arenas theory Foucault s discourse analysis and Deleuze and Guattari s rhizomes and assemblages In SA the situation itself becomes the fundamental unit of analysis Using extensive examples the authors discuss getting started how to create three kinds of maps emphasizing differences and relationality situational maps social world arena maps and positional maps the kinds of analytic work they accomplish and how to write up the results centered on the distinctive strengths of the method The book will serve as an invaluable resource for advanced undergraduate and graduate level students as well as professional researchers and consultants from diverse backgrounds pursuing qualitative projects

Legal Aspects of Marine Protected Areas in the Mediterranean Sea Mitja Grbec, Tullio Scovazzi, Ilaria Tani, 2023-09-11 The objective of this book is to provide a comprehensive overview of the legal basis under international law and the relevant regional legal frameworks for the establishment and further development of area based conservation tools in the Mediterranean Sea with a particular emphasis placed on the transboundary area based conservation instruments available for the Adriatic and Ionian Seas Specifically the aim is to identify and analyze the concepts and functioning of both marine protected areas MPAs as traditional area based tools enabling marine habitat and species conservation and other effective area based conservation measures OECMs as a more recent addition to the picture Further with a view to providing responses to the complex set of challenges raised by the variety of tools and levels of intervention conclusions and ways forward are provided that identify practical implementation instruments through which a truly transboundary perspective may guide the development of protected marine spaces in the macro region An essential consideration in defining the ways forward lies in that the current trend towards the establishment of exclusive economic zones could soon become an incentive towards the adoption of a coherent and coordinated Mediterranean and Adriatic and Ionian network of transboundary area based conservation tools The book will be of interest to policy makers practitioners and academics with an interest in public international law the law of the sea and sustainable ocean governance

The Yudhoyono Presidency Edward Aspinall, Marcus Mietzner, Dirk Tomsa, 2015-05-13 The presidency of Susilo Bambang Yudhoyono 2004 14 was a watershed in Indonesia s modern democratic history Yudhoyono was not only the first Indonesian president to be directly elected but also the first to be democratically re elected Coming to office after years of turbulent transition he presided over a decade of remarkable political stability and steady economic growth But other aspects of his rule have been the subject of controversy While supporters view his presidency as a period of democratic consolidation and success critics view it as a decade of stagnation and missed opportunities This book is the first

comprehensive attempt to evaluate both the achievements and the shortcomings of the Yudhoyono presidency. With contributions from leading experts on Indonesia's politics, economy and society, it assesses the Yudhoyono record in fields ranging from economic development and human rights to foreign policy, the environment and the security sector. **Civic Engagement in Food System Governance** Alan R. Hunt, 2015-10-05. The local food movement is one of the most active of current civil engagement social movements. This work presents primary evidence from over 900 documents, interviews and participant observations and provides the first descriptive history of local food movement national policy achievements in the US from 1976 to 2013 and in the UK from 1991 to 2013, together with reviews of both the American and British local food movements. It provides a US-UK comparative context, significantly updating earlier comparisons of American, British and European farm and rural policies. The comparative perspective shows that over time more effective strategies for national policy change required social movement building strategies such as collaborative policy coalitions, capacity building for smaller organizations and policy entrepreneurship for joining together separate rural, farming, food and health interests. In contrast, narrowly defined single issue campaigns often undermined long term policy change, even if short term wins emerged. By profiling interviews of American and English movement leaders, policymakers and funders, the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences. [The Governing-Evaluation-Knowledge Nexus](#) Christina Segerholm, Agneta Hult, Joakim Lindgren, Linda Rönnerberg, 2019-09-10. This Open Access book analyses the interplay between governing, evaluation and knowledge, with an empirical focus on Swedish higher education. It investigates the origins, logics and mechanisms of evaluation and quality assurance reforms and their dynamic interactions with institutional, national and European policy contexts. The chapters report findings from extensive empirical studies that offer detailed insight into the work of governing in higher education by giving voice to actors at various levels and positions, including the ministry, national agency and University employees. Central themes include the influence of European policy, changing system designs, media relations and quality assurance enactments in University institutions. The book also explores the ways in which an emerging professional cadre, labelled 'qualocrats', enacts and mediates evaluation and quality assurance policy and practice. Taken together, the expanding evaluation machinery in Swedish higher education highlights the pivotal role of knowledge as a governing resource and points to special features of evaluation as a particular form of practice that makes knowledge work for governing. *The Budget of the United States Government* United States.
