Memorandium Of Tourism Phase Two:

Nominations of the 110th Congress, Second Session United States. Congress. Senate. Committee on Foreign Relations,2009 Tourism and Poverty Reduction Anna Spenceley,Dorothea Meyer,2017-10-02 Over the past decade there have been an increasing number of publications that have analysed and critiqued the potential of tourism to be a mechanism for poverty reduction in less economically developed countries LEDCs This book showcases work by established and emerging researchers that provides new thinking and tests previously made assumptions providing an essential guide for students practitioners and academics This book advances our understanding of the changes and ways forward in the field of sustainable tourism development Five main themes are illustrated throughout the book 1 measuring impacts of tourism on poverty 2 the need to evaluate whether interventions that aim to reduce poverty are effective 3 how unbalanced power relations and weak governance can undermine efforts 4 the importance of the private sector s use of pro poor business practices and 5 the value of using multidisciplinary and multi method research approaches Furthermore the book shows that academic research findings can be used practically in destinations and how practitioners can benefit from sharing their experiences with academic scholars This book was based on a special issue and various articles from the Journal of Sustainable Tourism **Proceedings Regional Agro-tourism Conference** , *Qualitative Methods in Tourism Research* Wendy Hillman,Kylie Radel,2018-01-05 This volume seeks to expose and illustrate new approaches and thinking in qualitative methods that are being developed and implemented in tourism research The contributions bring together various qualitative methods and approaches while also providing suggestions for the juxtaposition of qualitative and quantitative methods in mixed methods research The book has been written with a cross disciplinary approach which provides an insight into the art of research development from business sociology and tourism perspectives The chapters provide readers with a context and practical application examples for each method They present a distinctive opportunity for social researchers from a range of disciplines in particular tourism to examine how to adapt the wide variety of qualitative approaches to their particular research needs **Sustainable Tourism in the Americas** Edward W. Manning,Luis Márquez,2023-09-30 Sustainable Tourism in the Americas introduces the reader to the establishment of sustainable tourism across the region It examines questions such as what is really meant by sustainable tourism Covered in eight chapters the book discusses the evolution and application of the concept in the Americas from its origins as well as documenting established success stories of sustainable tourism policy and implementation from several countries in the Americas The country and regional case studies critically examine what sustainable tourism means in their destination and address how in practice the concept of sustainability can be built to show results across different cultural and ecological situations ranging from local indigenous sites to urban environments It will be a valuable addition to the current lack of literature on this concept and of particular interest to those working within and studying tourism management and related themes Elephant Tourism in Nepal Michelle

Szydlowski,2024-02-01 A study of elephant tourism in Nepal from its origins in the 1960s to the present day this book examines the challenges faced by captive elephants Used as human conveyance on anti poaching patrol teams as rescue vehicles and in forestry service elephants have worked with and for humans for hundreds of years However the use of elephants in tourism is a fairly new development within Nepal Because the health and welfare of tourism elephants is vital to the conservation of wild individuals this book offers an assessment of captive elephant needs and an examination of their existing welfare statuses This book seeks to examine the motivations of these NGOs and INGOs and to consider their ethical approaches to elephant health and welfare Are the motivations of these organizations similar enough to work together towards a common goal or are their ethical norms so different that they get in one another s way Using an ordinary language and ethics framework this text aims to identify the norms of cultures and organisations and reframe them in ways which may allow for more successful interactions   S. 680, the Tourism Policy and Export Promotion Act of 1991 United States.
