The Cost-Benefit Revolution Cass R. Sunstein, 2019-09-24 Why policies should be based on careful consideration of their costs and benefits rather than on intuition popular opinion interest groups and anecdotes Opinions on government policies vary widely Some people feel passionately about the child obesity epidemic and support government regulation of sugary drinks Others argue that people should be able to eat and drink whatever they like Some people are alarmed about climate change and favor aggressive government intervention Others don't feel the need for any sort of climate regulation In *The Cost Benefit Revolution* Cass Sunstein argues our major disagreements really involve facts not values It follows that government policy should not be based on public opinion intuitions or pressure from interest groups but on numbers meaning careful consideration of costs and benefits Will a policy save one life or one thousand lives Will it impose costs on consumers and if so will the costs be high or negligible Will it hurt workers and small businesses and if so precisely how much As the Obama administration's regulatory czar Sunstein knows his subject in both theory and practice Drawing on behavioral economics and his well known emphasis on nudging he celebrates the cost benefit revolution in policy making tracing its defining moments in the Reagan Clinton and Obama administrations and pondering its uncertain future in the Trump administration He acknowledges that public officials often lack information about costs and benefits and outlines state of the art techniques for acquiring that information Policies should make people's lives better Quantitative cost benefit analysis Sunstein argues is the best available method for making this happen even if in the future new measures of human well being also explored in this book may be better still *Research Handbook on Intellectual Property and the Life Sciences* Duncan Matthews, Herbert Zech, 2017-06-30 Intellectual property IP is a key component of the life sciences one of the most dynamic and innovative fields of technology today At the same time the relationship between IP and the life sciences raises new public policy dilemmas The *Research Handbook on Intellectual Property and the Life Sciences* comprises contributions by leading experts from academia and industry to provide in depth analyses of key topics including pharmaceuticals diagnostics and genes plant innovations stem cells the role of competition law and access to medicines The *Research Handbook* focuses on the relationship between IP and the life sciences in Europe and the United States complemented by country specific case studies on Australia Brazil China India Japan Kenya South Africa and Thailand to provide a truly international perspective **Management of Legionella in Water Systems** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division on Earth and Life Studies, Board on Population Health and Public Health Practice, Board on Life Sciences, Water Science and Technology Board, Committee on Management of Legionella in Water Systems, 2020-02-20 Legionnaires disease a pneumonia caused by the *Legionella* bacterium is the leading cause of reported waterborne disease outbreaks in the United States *Legionella* occur naturally in water from many different environmental sources but grow rapidly in the warm stagnant conditions that can be found in engineered water

systems such as cooling towers building plumbing and hot tubs Humans are primarily exposed to Legionella through inhalation of contaminated aerosols into the respiratory system Legionnaires disease can be fatal with between 3 and 33 percent of Legionella infections leading to death and studies show the incidence of Legionnaires disease in the United States increased five fold from 2000 to 2017 Management of Legionella in Water Systems reviews the state of science on Legionella contamination of water systems specifically the ecology and diagnosis This report explores the process of transmission via water systems quantification prevention and control and policy and training issues that affect the incidence of Legionnaires disease It also analyzes existing knowledge gaps and recommends research priorities moving forward AIIMS Annual Report All-India Institute of Medical Sciences,2015 *Yearbook of International Organizations 2013-2014 (Volumes 1a-1b)* Union Of International Associations,Union of International Associations,2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **Parliamentary Papers** Great Britain. Parliament. House of Commons,1910 *Islamic Ecumene* David S. Powers,Eric Tagliacozzo,2023-11-15 The essays in *Islamic Ecumene* address the ways in which Muslims from Morocco to Indonesia and from sub Saharan Africa to the steppes of Uzbekistan are members of a broad cultural unit Although the Muslim inhabitants of these lands speak dozens of languages represent numerous ethnic groups and practice diverse forms of Islam they are united by shared practices and worldviews shaped by religious identity To highlight these commonalities the co editors invited a team of scholars from a wide range of disciplines to examine Muslim societies in comparative and interconnected ways The result is a book that showcases ethics education architecture the arts modernization political resistance marriage divorce and death rituals Using the insights and methods of historians anthropologists literary critics art historians political scientists and sociologists *Islamic Ecumene* seeks to understand Islamic identity as a dynamic phenomenon that is reflected in the multivalent practices of the more than one billion people across the planet who identify as Muslims **The Use of Dispersants in Marine Oil Spill Response** National Academies of Sciences, Engineering, and Medicine,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Ocean Studies Board,Committee on the Evaluation of the Use of Chemical Dispersants in Oil Spill Response,2020-05-24 Whether the result of an oil well blowout vessel collision or grounding leaking pipeline or other incident at sea each marine oil spill will present unique circumstances and challenges The oil type and properties location time of year duration of spill water depth environmental conditions affected biomes potential human community impact and available resources may vary significantly Also each spill may be governed by policy guidelines such as those set forth in the National Response Plan Regional Response Plans or Area Contingency Plans To respond effectively to the specific conditions presented during an oil spill spill responders have used a variety of response options including mechanical recovery of oil using skimmers and booms in situ burning of oil monitored natural attenuation of oil and dispersion of oil by chemical dispersants Because each response method has advantages and disadvantages it is important to understand specific

scenarios where a net benefit may be achieved by using a particular tool or combination of tools This report builds on two previous National Research Council reports on dispersant use to provide a current understanding of the state of science and to inform future marine oil spill response operations The response to the 2010 Deepwater Horizon spill included an unprecedented use of dispersants via both surface application and subsea injection The magnitude of the spill stimulated interest and funding for research on oil spill response and dispersant use in particular This study assesses the effects and efficacy of dispersants as an oil spill response tool and evaluates trade offs associated with dispersant use **Defense**
