**Negotiating Identities in Contemporary Africa** Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa

**The Status of Student Involvement in University Governance in Kenya** Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya

**Thus Until** Emilia Ilieva, Reuben Matheka, 2025-08-04 *Thus Until* A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since

the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style

**Higher Education Admission Practices** María Elena Oliveri,Cathy Wendler,2020-01-30 Reveals practices and issues in higher education admissions which are critical factors for improving worldwide access and equity

**Cultural Impact on Conflict Management in Higher Education** Nancy T. Watson,Lei Xie,Matthew J. Etchells,2018-07-01 Cultural Impact on Conflict Management in Higher Education shares information regarding conflict management and resolution in higher education from a global perspective In this book we introduced many conflict resolution methods from different regions in the world You can borrow some successful strategies and examine the differences and similarities between contexts The book shares a conflict resolution model which may direct the reader to start thinking about addressing and managing conflicts from different levels of organizations This book is a collective work of authors coming from all over the world We chose higher education as the context because it is a place where diverse thoughts perspectives and people come together Because of the potential richness of diversity on a college campus the opportunity for conflicts occurs Managing conflict does not work when there is a one way only approach model for addressing conflict Some conflict resolution encompasses multiple dimensions a one s personal beliefs or beliefs about an issue b an individual s personal history in terms of how the conflict was perceived as something to be discussed or not c work culture of the conflict where if one has a conflict the person or unit is messing up or there is a problem person d the unconscious strategies of face saving trying to maintain one s image present e social hierarchies or relationships and f the diversity dimensions and issues that may be present

Advancing Africa's Sustainable Development Alain L. Fymat,2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development the situation is progressively improving This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa s fourth annual conference The conference was held under the overarching theme of science technology and innovation in Africa with several important sub themes including but not limited to improving health research and disease surveillance education collaborating in

research responding to epidemic diseases with high mortality in Africa and promoting women's interest in science careers. The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science technology and innovation in Africa.

**The Elusive African Renaissance** George Klay Kieh, Jr., 2018-08-28 Africa faces several major development challenges that have adversely affected the political and material well being of the majority of the people living there. This collection of new essays rigorously analyzes those frontier development issues including democracy leadership the economy poverty alleviation through microfinance schemes food security education health and political instability and offers prescriptions that differ from the dominant neoliberal solutions.

**Food Safety in Low and Middle Income Countries** Delia Grace, Bassirou Bonfoh, Hung Nguyen-Viet, Barbara Häsler, 2024-02-23 Foodborne diseases FBD are an important externality of agriculture and food systems but only recently have they risen up the development agenda as the result of growing awareness of the health and economic burdens of FBD and how they relate to food systems with a focus on low income and middle income countries LMIC particularly African nations. The health burden of FBD is comparable with that of malaria and over 90% falls on people in LMIC with an economic burden of more than US 100 million per year. FBD have many other less well estimated effects on nutrition gender equity and the environment. While understanding of food safety in domestic markets of LMICs has advanced greatly risk management is in its infancy. This Research Topic will bring together leading regional perspectives on food safety in LMICs.

**Enforcement of Judgements of the East African Court of Justice. Legal Application and Binding Nature** Paul Turatsinze, 2022-10-17 Bachelor Thesis from the year 2022 in the subject Politics Topic Public International Law and Human Rights grade 82 University of Rwanda course LAW language English abstract This thesis analyses the enforcement of judgements of the East African Court of Justice. The most generic challenge faced by many international courts is the level of obedience by their member states. The EACJ is not an island to this common reflection. Essentially international courts are influential only when their decisions are easily complied with and executed by member states. If not as with the case of the EACJ then such an international court will always be on the brink of being toothless and ineffective. At the end of each reference the EACJ delivers a judgment. It also issues interim orders carrying a status similar to that of a court judgment. Member States as well as the Council are bound to implement EACJ judgments without delay. But there are no established mechanisms to ensure compliance in the event that a state refuses to implement a decision against it. Since 2005 the EACJ has dealt with more than 190 matters. What is intriguing in those judgments is tracking the extent to

which they have been met with compliance Member States have not been sanctioned when they have failed to comply with the EACJ s decisions It is a matter of fact and a matter of principle that the nature of EACJ judgments is declaratory and this tends to attract noncompliance The best the Court can offer is to declare violations of the law give orders for injunctive relief and award costs to the successful applicants The costs order depends on the nature of the case Public interest cases do not attract costs orders     *Exiled and in Limbo* Shannon Orcutt,2016     Parliamentary Debates Great Britain.
