especially those unsolved are one of the most horrific things that can happen to a town The very thought that there is someone stalking the streets as a hunter stalks its prey the streets that you live on looking for victims to carry out a sick and evil game on is a very terrifying prospect Many of these killers strike in the same area for years others move around spreading fear in new neighborhoods and luckily many of them are caught However when the killer is not caught citizens are forced to imagine when he or she will strike again Some murders while not the work of a serial killer are so gruesome they leave their mark on the community long after the case is dubbed cold and the newspapers stop writing about it These communities suffer through the probing eyes of the curious and the thoughts that a murder may still live among them This book explores five of the strangest unsolved murders in history Enjoy and may your fears not invade your dreams

committed these crimes and how they got away with it Some cases expose the depravity of human nature such as The Keddie Cabin murders where a family was brutally slain as they slept Then there are fascinating stranger than fiction cases like the tale of Teresita Basa whose story reads like a movie script I ve researched many cold cases over the years and from one keen true crime reader to another I ve included ones I feel don t get as much attention or coverage like The Zodiac Killer or Jack the Ripper for example While some of these cases did hit headlines at the time they happened it s frustrating to find lack of clues ended up in lack of interest over time True crime is never the lightest of reads but the cases in these book are made all the more heavy due to the victims never being granted justice nor their families closure It s frightening to think that when a crime goes unpunished it will likely be repeated a notion that makes the crimes in this anthology all the more chilling
