Committee examines the impact of the payment delays on the farming sector why implementation failed the role of Defra and the changes being put in place to rectify the mistakes made Lessons highlighted include the Department made the scheme unnecessarily complex by choosing to adopt the most demanding implementation option the Rural Payments Agency shed too many experienced staff at a key time implementation of the project started before the scheme specification was finalised and the IT system was introduced without adequate testing a failure often seen with government IT projects **Journal of the Proceedings of the Common Council** Detroit (Mich.).
