**Educational Leadership and Louis Farrakhan** Abul Pitre, 2017-02-08 Drawing from Louis Farrakhan's decades of teaching on education and leadership this volume brings his ideas into the educational leadership discourse. It explores through a critical framework the purpose of education disclosing how those in powerful positions have shaped educational policy to use schools and universities for their benefit. The book inspires educational leaders to serve the best interest of those under their leadership. In a spiritual tone it discusses the purpose of education leadership as love servant leadership, transformative leadership, and futuristic leadership. In the 21st century leadership for social justice has become a major theme and in this volume Louis Farrakhan's many years of working for equal justice on behalf of historically underserved groups is applied to the practice of educational leadership in K-12 and higher education. *An Introduction to Qualitative Research* Gretchen B. Rossman, Sharon F. Rallis, 2016-04-08 The updated Fourth Edition of Gretchen B. Rossman and Sharon F. Rallis's popular introductory text leads the new researcher into the field by explaining the core concepts through theory, research, and applied examples. Woven into the chapters are three themes that are the heart of the book: first, research is about learning; second, research can and should be useful; and finally, a researcher should practice the highest ethical standards to ensure that a study is trustworthy. The Fourth Edition includes an elaborate discussion of systematic inquiry as well as a nuanced discussion of developing a conceptual framework. [Amazing Grace Study Guide](#) Morris, 2019-03-15

**Teaching Civic Literacy Projects** Shira Eve Epstein, 2014-09-01 This practical resource shows teachers how to enact robust forms of civic education in today's schools. Both instructive and thought provoking, it will inspire teachers to craft curricula addressing a wide range of genuine civic problems such as those related to racial discrimination, environmental damage, and community health. Dividing civic literacy projects into three key phases: problem identification, problem exploration, and action, the author provides concrete examples from upper elementary, middle, and high school classrooms to illustrate and analyze how each phase can unfold. The projects ultimately provide opportunities for youth to participate in civic life while they develop essential literacy skills associated with reading, writing, and speaking. The final chapter outlines a curriculum design process that will result in coherent and meaningful civic literacy projects driven by clear goals. It includes practical tools such as a sample unit timeline, an assessment chart, and student worksheets that can be modified for immediate use.
