Human Resource Management 'with Chinese Characteristics' Malcolm Warner, 2013-09-13 Five years into World Trade Organization membership how is China's system of people management adapting to the changing world This edited book provides an up to date state of the art overview of current theory and practice of human resource management with Chinese characteristics The latter is a phrase used to refer to the specific cultural institutional and social setting in which such management structures and processes are to be found in the Middle Kingdom As the People's Republic of China becomes inexorably linked to the international economy and increasingly faces the challenges of globalization its enterprises and their managers have to adapt to pressures to conform to external human resources and employment norms whilst at the same time conforming to internal labour laws and socio political demands The tension between these two sets of factors provides an arena in which human resource managers as well as workers have to cope perform and survive The papers included in this collection are all based on empirical on site research by specialists in the field They deal with such HRM related topics as expatriates family demands human capital joint ventures labour disputes organizational commitment psychological contracts social networks work behaviour and the like The authors of the papers covered in the book come from a variety of backgrounds and university affiliations in Australia Canada Finland Hong Kong Japan People's Republic of China United Kingdom and United States of America

Chinese Management in the 'Harmonious Society' Malcolm Warner, Chris Rowley, 2013-10-18 Whither Chinese management The Middle Kingdom has come a long way since the economic reforms were introduced after 1978 As ownership has opened up and has become more fragmented the state owned firms no longer dominate the scene nor does their management model Managing has also become more complex and diversified as well as more professional This book asks what the next steps are likely to be and will assess the current directions in which Chinese managers are developing as its economy slows down in the face of global uncertainty It aims to update previous works in the field covering business and management in these countries It covers a wide range of topics including banking competition employee satisfaction expatriates industrial relations HRM organization SMEs social

responsibility strategic sourcing trust and so on The book also asks in which future directions management may be moving in this important part of the international economy The authors are all experts in their fields and are all based in universities and business schools in countries such as Australia and the UK among others The work is aimed at undergraduate and postgraduate students in business administration especially those on MBA programmes as well as those studying development economics management studies and related courses including lecturers in those subjects This book was published as a special issue of Asia Pacific Business Review Society and HRM in China Malcolm Warner,2013-09-13 This volume looks at the relationship between society and human resource management HRM in China In doing so it asks how representative the latter is of the former The contributors argue that there needs to be a minimum degree of consonance between these two variables if HRM is to be sufficiently underpinned by social reality It is only in a wider framework that people management in general and in China in particular can be fully understood whether through theory or through practice Society and HRM in China explores the changes in Chinese society over the last century and then goes on to analyse how these changes have shaped China's HRM Arguably HRM did not emerge from the void it was shaped by the societal culture from which it sprung and the economic forces influencing its institutions and organizations However there is very little academic literature about the relationship between contemporary Chinese society and its HRM which isn't extremely specific As such much of the research in this collection is not only relatively representative but also highly cross sectional The contributions are all drawn from experts in the field across the disciplines hailing from a diverse range of national origins and educational institutions They cover a wide range of topics approaches and emphases This book was originally published as a special issue of The International Journal of Human Resource Management International Human Resource Management in Chinese Multinationals Jie Shen,Vincent Edwards,2006-09-27 The authors explore the degree to which Chinese multinationals have a distinctive Chinese approach to human resource management in the same way as large Japanese companies are widely regarded as having a special Japanese approach Based on extensive original research in the subsidiaries of Chinese multinationals outside China the book examines a wide range of issues related to this key question including the evolution of human resource management in Chinese companies the internationalization of Chinese business recruitment and selection rewards and compensation performance appraisal strategic integration and employee relations Shen and Edwards give a detailed account of the international human resource management of Chinese multinational enterprises a topic of increasing significance in understanding global economic affairs New Models of Human Resource Management in China and India Alan R. Nankervis,Fang Lee Cooke,Samir R. Chatterjee,Malcolm Warner,2013-07-04 This book presents a comprehensive analysis of the similarities and differences of contemporary human resource management systems processes and practices in the two increasingly important economic great powers in Asia It covers the full range of human resource management activities including recruitment retention performance management remuneration and career

The Future of Chinese Management Malcolm Warner, 2003. This edited collection looks at the ongoing state of management reforms in the People's Republic of China: how these have come about, why they have taken place and where they are leading. It analyses recent developments in the context of the changing Chinese economy notwithstanding entry in the World Trade Organization and the deepening of its economic and managerial reforms. The contributors, all international business specialists in their fields, examine a wide range of business, economic and managerial topics including decision making in Sino-foreign JVs, entry into the WTO, human resource management, supervisory boards and third-country national expatriates. HRM in China Jin Zhang, Chris Rowley, 2016. **Strategic Human Resource Management in China** Min Min, Mary Bambacas, Ying Zhu, 2017-01-20. This book documents and explains how strategic human resource management (SHRM) and high performance work systems (HPWS) have been adopted among indigenous enterprises, namely state-owned enterprises (SOEs) and domestic private enterprises (DPEs) in China from both management and employee perspectives. The book examines the mutual relationships between employees and their supervisors/managers through social exchange theory. It explains how and why employees develop their perceptions and relationships with their immediate supervisors/managers in the working environment and the consequent effects on their attitudes and behaviour at work. Given the importance of the Chinese economy in the world and the impact of its open door policy and economic and management reforms, this book will provide valuable insight into China's SHRM and HPWS.
