**Popular Memories of the Mao Era** Sebastian Veg, 2019-01-10. The present volume provides an overview of new forms of popular memory in particular critical memory of the Mao era. Focusing on the processes of private production, public dissemination, and social sanctioning of narratives of the past in contemporary China, it examines the relation between popular memories and their social construction as historical knowledge. The three parts of the book are devoted to the shifting boundary between private and public in the press and media, the reconfiguration of elite and popular discourses in cultural productions, film, visual art, and literature, and the emergence of new discourses of knowledge through innovative readings of unofficial sources. Popular memories pose a challenge to the existing historiography of the

first thirty years of the People's Republic of China. Despite the recent backlash, these more critical reflections are beginning to transform the mainstream narrative of the Mao era in China. Public discussions of key episodes in the history of the People's Republic, in particular the Anti-Rightist Movement of 1957, the Great Famine of 1959-1961, and the Cultural Revolution, have proliferated in the last fifteen years. These discussions are qualitatively different from previous expressions of traumatic or nostalgic memories of Mao in the 1980s and the 1990s, respectively. They reflect a growing dissatisfaction with the authoritarian control over history exercised by the Chinese state, and often they make use of the new spaces provided for counter-hegemonic narratives by social media and the growing private economy in the 2000s. Unofficial or independent journals, self-published books, social media groups, independent documentary films, private museums, oral history projects, and archival research by amateur historians, all of which analyzed in this collection, have contributed to these embryonic public or semi-public dialogues. An excellent guide to the independent journalism, cultural production, and amateur histories that are transforming the mainstream narrative of the Mao era in China. Rich in detail and sound in analysis, these studies document the emergence of critical memory in Chinese society. A valuable resource for students and scholars. Timothy Cheek, University of British Columbia, author of *The Intellectual in Modern Chinese History*. Popular memories of the Mao era are signposts of contemporary politics and culture. This volume features exciting new research by distinguished scholars. Extremely rich and readable, the chapters in this collection illuminate both China's past and present. A timely and important contribution. Guobin Yang, University of Pennsylvania, author of *The Red Guard Generation and Political Activism in China*. Modern Chinese History Harley Farnsworth MacNair, 1923 **The Columbia Anthology of Modern Chinese Drama** Xiaomei

Chen, 2014-04-01. This condensed anthology reproduces close to a dozen plays from Xiaomei Chen's well-received original collection, along with her critical introduction to the historical, cultural, and aesthetic evolution of twentieth-century Chinese spoken drama. Comprising representative works from the People's Republic of China, the collection encapsulates the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty and vividly portrays the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. Chosen works from 1919 to 1990 also highlight the formation of Chinese national and gender identities during a period of tremendous social, cultural, and political change, and the genesis of contemporary attitudes toward the West. PRC theater tracks the rise of communism in China, juxtaposing ideals of Chinese socialism against the sacrifices made for a new society. Post-Mao drama addresses the nation's socialist legacy, its attempt to reexamine its cultural roots, and postsocialist reflections on critical issues such as nation, class, gender, and collective memories. An essential, portable guide for easy reference and classroom use, this abridgement provides a concise yet well-rounded survey of China's theatricality and representation of political life. This work has not only established a canon of modern Chinese drama but also made it available for the first time in English in a single volume.
