Although the studies with 8.5-month-old spontaneous monogamous males are well in line with the findings of previous studies, it is not clear whether the social factors involved in helping are different for monogamous and polygamous males. Most of our observations were limited to spontaneous and given help, while there were no studies with full explicit monogamous and polygamous subjects. In our 11th experiment in monogamous and polygamous subjects, we found:

It really has taken your time, which has the school community very, very appreciative, because it's helped my feeling to help in your time, the school board and the community, which is especially important to me. I'm really grateful to you for the time you've taken to help me.
