The Refugee Crisis and Religion Luca Mavelli, Erin Wilson, 2016-12-01 The current refugee crisis sweeping Europe and much of the world closely intersects with largely neglected questions of religion Moving beyond discussions of religious differences what can we learn about the interaction between religion and migration Do faith based organisations play a role within the refugee regime How do religious traditions and perspectives challenge and inform current practices and policies towards refugees This volume gathers together expertise from academics and practitioners as well as migrant voices in order to investigate these interconnections It shows that reconsidering our understanding and approaches to both could generate creative alternative responses to the growing global migration crisis Beginning with a discussion of the secular religious divide and how it shapes dominant policy practices and counter approaches to displacement and migration the book then goes on to explore and deconstruct the dominant discourse of the Muslim refugee as a threat to the secular Christian West The discussion continues with an exploration of Christian and Islamic traditions of hospitality showing how they challenge current practices of securitization of migration and concludes with an investigation of the largely unexplored relation between gender religion and migration Bringing together leading and emerging voices from across academia and practice in the fields of International Relations migration studies philosophy religious studies and gender studies this volume offers a unique take on one of the most pressing global problems of our time

Legal Application and Binding Nature** Paul Turatsinze, 2022-10-17 Bachelor Thesis from the

year 2022 in the subject Politics Topic Public International Law and Human Rights grade 82 University of Rwanda course LAW language English abstract This thesis analyses the enforcement of judgements of the East African Court of Justice The most generic challenge faced by many international courts is the level of obedience by their member states The EACJ is not an island to this common reflection Essentially international courts are influential only when their decisions are easily complied with and executed by member states If not as with the case of the EACJ then such an international court will always be on the brink of being toothless and ineffective At the end of each reference the EACJ delivers a judgment It also issues interim orders carrying a status similar to that of a court judgment Member States as well as the Council are bound to implement EACJ judgments without delay But there are no established mechanisms to ensure compliance in the event that a state refuses to implement a decision against it Since 2005 the EACJ has dealt with more than 190 matters What is intriguing in those judgments is tracking the extent to which they have been met with compliance Member States have not been sanctioned when they have failed to comply with the EACJ s decisions It is a matter of fact and a matter of principle that the nature of EACJ judgments is declaratory and this tends to attract noncompliance The best the Court can offer is to declare violations of the law give orders for injunctive relief and award costs to the successful applicants The costs order depends on the nature of the case Public interest cases do not attract costs orders **UNESCO Science Report** UNESCO,2021-06-18
