**The Elusive African Renaissance** George Klay Kieh, Jr., 2018-09-12 Africa faces several major development challenges that have adversely affected the political and material well being of the majority of the people living there This collection of new essays rigorously analyzes those frontier development issues including democracy leadership the economy poverty alleviation through microfinance schemes food security education health and political instability and offers prescriptions that differ from the dominant neoliberal solutions *The Oxford Handbook of Kenyan Politics* Nic Cheeseman, Karuti

Kanyinga, Gabrielle Lynch, 2020-02-14 Kenya is one of the most politically dynamic and influential countries in sub Saharan Africa Today it is known in equal measure as a country that has experienced great highs and tragic lows In the 1960s and 1970s Kenya was seen as a success story of development in the periphery and also led the way in terms of democratic breakthroughs in 2010 when a new constitution devolved power and placed new constraints on the president However the country has also made international headlines for the kind of political instability that occurs when electoral violence is expressed along ethnic lines such as during the Kenya crisis of 2007 08 when over 1 000 people lost their lives and almost 700 000 were displaced The Oxford Handbook of Kenyan Politics explains these developments and many more drawing together 50 specially commissioned chapters by leading researchers The chapters they have contributed address a range of essential topics including the legacy of colonial rule ethnicity land politics devolution the constitution elections democracy foreign aid the informal economy civil society human rights the International Criminal Court the growing influence of China economic policy electoral violence and the impact of mobile phone technology In addition to covering some of the most important debates about Kenyan politics the volume provides an insightful overview of Kenyan history from 1930 to the present day and features a set of chapters that review the impact of devolution on regional politics in every part of the country

**Higher Education and Policy for Creative Economies in Africa** Roberta Comunian, Brian J. Hracs, Lauren England, 2020-11-04 The book reflects on the role of the creative economies in a range of African countries namely Ghana Kenya Nigeria South Africa and Uganda Chapters explore how creative economies emerge and can be supported in African countries The contributors focus on two key dimensions the role of higher education and the role of policy Firstly they consider the role of higher education and alternative forms of specialised education to reflect on how the creative aspirations of students and future creative workers of these countries are met and developed Secondly they explore the role of policy in supporting the agendas of the creative economy taking also into consideration the potential historical dimension of policy interventions and the impact of a lack of policy frameworks The book concludes by reflecting on how these two pillars of creative economy development which are usually taken for granted in studying creative economies in the global north need to be understood with their own specificity in the context of our selected case studies in Africa This book will be of interest to students scholars and professionals researching the creative economies in Africa across the humanities and social sciences

All the royalties from the publication of this book will be donated to the not for profit organisation The Craft and Design Institute CDI <https://www.thecdi.org.za> in South Africa supporting capacity building for young creative practitioners from disadvantaged backgrounds
