Kzn Economics Paper 2 Prelim 2014:

Boko Haram's Terrorism and the Nigerian State Olumuyiwa Temitope Faluyi, Sultan Khan, Adeoye O. Akinola, 2019-03-08

This book assesses the effectiveness of Nigeria's counterterrorist policies against Boko Haram. It takes a critical review of the interventionist strategies adopted by the Nigerian government, highlights the motivations behind the choice of strategies, and proffers a deeper understanding of the factors responsible for the state's inability thus far to rid the country of terrorism. Specifically, it evaluates the NACTEST policy framework that guides the Nigerian state's counterterrorist strategies, which contains both hard and soft power approaches. Adopting historical and case study approaches, which put the Nigerian state and occurrences of violent conflict in context, it takes cognizance of the politics of ethno-religious diversity, which reinforces violent conflicts among groups and against the state, and reviews the socio-economic and political realities that led to the emergence and sustenance of Boko Haram. The volume concludes by suggesting practical policy options for combating Boko Haram and other similar armed insurrection. This book is appropriate for researchers and students interested in African politics, conflict, security, peace studies, terrorism, and counterterrorism, as well as policy makers and government departments dealing with terrorism and counterterrorism.

India-Africa Economic Relations in the New Global Economy Rick Rowden, 2025-03-18. While there have been many books about China's growing economic role in Africa, this book explores the much less well-known story of India's growing economic role in Africa. And like the big debates about China's role in Africa, this book similarly asks if India is acting as a helpful development partner in Africa, an exploitative new colonizer, or if the answer ultimately has to do with the degree of agency exercised by African governments. While the book documents the significant increase in Indian aid, trade, and FDI in Africa in the new millennium, it also offers much more. It comprehensively looks at theories of economic development, the debates about the role of trade and industrial policies in economic development, strategies, colonial and post-colonial literature, and controversial features of today's global political economy as the background to study Africa and frames Africa-India economic relations in these broad contexts. The book reviews the history of India's diplomacy, trade, and investment in African countries since decolonization, with a focus on the increased economic ties of the past two decades. The main question examined is about the long-term impact that India's economic relations are having in African economies and if India is helping Africa to successfully develop over time or not. The author examines India's economic and strategic interests in the African region and offers a comparative analysis of Africa's trade with India, China, the European Union, and other African nations. The book also explores a number of outstanding issues in India-Africa relations today, such as Africa's role as a source of oil, gas, and critical minerals needed by India, the lifesaving role of Indian generic medicines across the continent, the nature of the agricultural development model that India is introducing in Africa, and key areas where Indian and African governments are cooperating in the international arena. The book offers a critical and in-depth look into the partnerships India has developed with African countries and contributes to the debate on

economic relations between a more developed emerging market like India and less developed countries A major contribution to the emerging area of South South economics this book part of the Critical Political Economy of South Asia series will be useful for scholars and researchers of economics development economics development studies public policy diplomacy African studies political economy South Asian economics and international politics and trade **Learning for a Better Future** Suzanne Hattingh,2021-12-31 Various international scholars and associates of the PASCAL Place Social Capital and Learning Regions International Observatory Africa hub under the auspices of the Centre for Local Economic Development CENLED based at the University of Johannesburg UJ have contributed chapters in this scholarly book The book aims to demonstrate how a combination of globalisation pandemics and the impact of innovation and technologies are driving towards a world in which traditional ideas are being challenged The book carries forward a dual context and relevance to South African social educational economic and cultural development and the broader international context and action directed at how lifelong learning for all can be fostered in communities as a foundation for a just human centred sustainable world The distinctive contribution of this book to the production of a local body of knowledge lies in the symbiotic relationships between these objectives so that South Africa could serve as a test case in working towards approaches that have a wider international significance **Political Economy of Post-apartheid South Africa** Vusi Gumede,2015-12-29 The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging overview of the socio economic development approaches followed by the successive post apartheid administrations Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress The authors extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government **DIY Urbanism in Africa**
