University Community Engagement and Lifelong Learning Julia Preece, 2017-07-13 This book offers a conceptual re think of how university community engagement functions as a lifelong learning resource for communities While having a specific focus on the South African context it has important implications for other universities which are concerned with their communities and makes a compelling argument for the university as a public good in spite of current trends towards marketization and commodification of higher education The book draws on a theoretical framework of capabilities asset based community development and the adult learning concept of dialogue to propose a model whereby the boundary walls of the university become metaphorically porous so that community members feel free to interact with the university as equal members of society A historical outline of African universities is provided as well as an exploration of the evolution of terms for community engagement service learning and learning cities and an examination of the policy and practice implications for the ideological model of a porous university

Places of Privilege, 2018-07-19 Places of Privilege examines dynamics of privilege and power in the construction of place in a period of the rapid social transformation of places borders and boundaries Drawing on inter disciplinary perspectives the book examines place as a site for the making and re making of privilege while considering new meanings of community and examining spaces for cultural identity and resistance Chapters point to a range of conceptual resources that can be utilised to produce critical analyses of place making As the authors point out power and privilege shape place but these dynamics are in turn shaped by the specific place based histories and social dynamics within which they are located Contributors are Lutfiye Ali Alison M Baker Paola Bilbrough Tony Birch Jora Broerse Sally Clark Josephine Cornell Yon Hsu Lou Iaquinto Karen Jackson Shose Kessi Rebecca Lyons Chris McConville Nicole Oke Amy Quayle Alexandra Ramirez Kopano Ratele Christopher C Sonn and Ram n Spaaij

Urban Ecology in the Global South Charlie M. Shackleton, Sarel S. Cilliers, Elandrie Davoren, Marié J. du Toit, 2021-04-20 Against the background of unprecedented rates of urbanisation in the Global South leading to massive social economic and environmental transformations this book engages with the dire need to understand the ecology of such settings as the foundation for fostering sustainable and resilient human settlements in contexts that are very different to the Global North It does so by bringing together scholars from around the world drawing together research and case studies from across the Global South to illustrate in an interdisciplinary and comprehensive fashion the ecology of towns and cities in the Global South Framed using a social ecological systems lens it provides the reader with an in depth analysis and understanding of the ecological dynamics and ecosystem services and disservices within the complex and rapidly changing towns and cities of the Global South a region with currently scarce representation in most of the urban ecology literature As such the book makes a call for greater geographical balance in urban ecology research leading towards a more global understanding and frameworks The book embraces the complexity of these rapid transformations for ecological and environmental management and how the

ecosystems and the benefits they provide shape local ecologies livelihood opportunities and human wellbeing and how such knowledge can be mobilised towards improved urban design and management and thus urban sustainability General
