**Indian Ocean Islands** Christian Bouchard, Shafick Osman, 2018-12-07 Islands are intrinsic parts of the Indian Ocean Region's physical geography and human landscape. Historically many have played substantial roles in the regional cultural and economic networks as well as in the regional political developments. Today at least three issues bring these islands back to the forefront of the regional and global affairs namely geopolitics and strategic matters, environmental conditions and challenges as well as ocean affairs. However there has not been yet a lot of research and publications on this phenomenon of islands growing significance in the specific context of the Indian Ocean Region. This book provides a rare attempt to cover various issues related to geopolitics, international relations, history, security, anthropology and ocean environment of Indian Ocean islands and their societies. More specifically it provides case studies on Sri Lanka, foreign policy, Cocos and Christmas Islands, geo strategy, Chagos Archipelago, history, Mauritius, Indo Mauritians, Mauritius and Seychelles, maritime security, European Union and the Indian Ocean Islands, international relations and Sundarban islands, environment and society. The chapters were originally published in a special issue of the Journal of the Indian Ocean Region, *Regional Compendium of Fisheries Legislation (Indian Ocean Region)*, 1987-01-01. **(section VIII, pt. 1) Public health and medicine.
