Living Expectantly Extraordinary Living In An Ordinary World:

Living Expectantly: Extraordinary Living in an Ordinary World. Elaine Keith,2014-12-01 If this tree could talk it would have many interesting stories to share What you might not have noticed the tree is damaged You see it was struck by lightening and not only that but it had weathered many storms This tree is symbolic of what our life was at one time Every counselor that we sought seemed to think that our marriage was diseased and there was no hope Our children were definitely being negatively affected We were so damaged Our scars were ugly Was there any hope for our family Should we be taken down We loved that ole oak so we decided to take a chance on that tree With care and tenderness the tree began to heal and though it has remained scarred it provides the most wonderful shade on a hot summer day Jesus took a chance on us and with His healing balm we too have survived We have faced many storms some more severe than others and though you might still see some scars in spite of all this He has used us to provide shade for others This is our story and our journey proving the faithfulness of God

Critique and Disclosure Nikolas Kompridis, 2011-08-19. A provocatively argued call for shifting the emphasis of critical theory from Habermasian critique, restricted to normative clarification, to disclosure, a possibility-enhancing approach that draws on and reinterprets ideas of Heidegger. In *Critique and Disclosure*, Nikolas Kompridis argues provocatively for a richer and more time-responsive critical theory. He calls for a shift in the normative and critical emphasis of critical theory from the narrow concern with rules and procedures of Jürgen Habermas's model to a change enabling disclosure of possibility and the enlargement of meaning. Kompridis contrasts two visions of critical theory's role and purpose in the world: one that restricts itself to the normative clarification of the procedures by which moral and political questions should be settled, and an alternative rendering that conceives of itself as a possibility-disclosing practice. At the center of this resituation of critical theory is a normatively reformulated interpretation of Martin Heidegger's idea of disclosure or world disclosure. In this regard, Kompridis reconnects critical theory to its normative and conceptual sources in the German philosophical tradition and sets it within a romantic tradition of philosophical critique. Drawing not only on his sustained critical engagement with the thought of Habermas and Heidegger but also on the work of other philosophers including Wittgenstein, Cavell, Gadamer, and Benjamin, Kompridis argues that critical theory must, in light of modernity's time-consciousness, understand itself as fully situated in its time, in an ever-shifting and open-ended horizon of possibilities to which it must respond by disclosing alternative ways of thinking and acting. His innovative and original argument will serve to move the debate over the future of critical studies forward beyond simple antinomies to a consideration of, as he puts it, what critical theory should be if it is to have a future worthy of its past.
