

MOVE MORE FOR HEALTHIER FILIPINO TEENS

INTRODUCTION

- Adolescents are individuals in the 10-19 years age group¹, and described as a phase of life between childhood and adulthood
- In the Philippines, adolescence accounts for 20% of the population².
- Adolescence is a unique stage of human development and an important time for laying the foundations of good health
- Lifestyle and health behavior patterns in adolescence are more likely to persist until adulthood including the choice of being physically active

SEVEN in every **TEN** Filipino Adolescents were **INSUFFICIENTLY PHYSICALLY ACTIVE**³

The Philippines ranked 2nd out of 146 countries in 2019 with the most number of physically inactive school children.

Worldwide, 81% of adolescents aged 11-17 years do not meet WHO's global recommendations on physical activity⁴.

There is overwhelming evidence for the lifelong **health benefits** of a physically active lifestyle and the **health risks** of inactivity and sedentary behavior **from adolescence to adulthood**.

OBJECTIVES

- To develop PA intervention tools to help promote an active lifestyle among Filipino adolescents, 13 - 17 years old; and
- To determine the types and levels of physical activity and its influencing factors in male and female Filipino adolescents.

Lobal Ealth 2nd Dition

**William H. Markle, Melanie A.
Fisher, Raymond A. Smego**

Global Health 2nd Edition:

Global Health 101 Richard Skolnik, 2012 *Global Health 101* Second Edition formerly titled *Essentials of Global Health* is a clear concise and user friendly introduction to the most critical issues in global health It illustrates key themes with an extensive set of case studies examples and the latest evidence While the book offers a global perspective particular attention is given to the health development link to developing countries and to the health needs of poor and disadvantaged people *Global Health 101* builds on the success of an introductory global health course taught by the author at the George Washington School of Public Health and Health Services and is ideally suited for the the Association of American Colleges and Universities recommended course by the same name The text is accompanied by a wealth of instructor s resources as well as a robust companion website with videos presentations and references intended to help both teachers and students Richard Skolnik is the winner of numerous honors for teaching has taught global health for 8 years and has more than 30 years of experience as a global health practitioner in multilateral university and NGO settings He has been actively involved in dealing with critical issues in global health at country level and at the highest levels of international health policy making Learn more about the author Richard Skolnik s *Essentials of Global Health* is so comprehensive that it will be key reading in international health In accessible language he explains why good health is crucial to economic development what indicators help track changes in global health and requirements for good health systems Approaches to solving world health problems must be under pinned by good ethics and human rights guidelines he says and local practices and cultures must not be ignored Skolnik looks in detail at children s and women s health and at the different challenges of tackling communicative and non communicative disease in developing countries He also maps out the key players in global health and looks ahead to future challenges The Lancet October 2007 The book is organized in four parts Principles Measurements and the Health Development Link The principles of Global Health Health Determinants Measurements and Trends and Health Education Poverty and the Economy Cross Cutting Global Health Themes Human Rights Ethics and Global Health An Introduction to Health Systems and Culture and Health The Burden of Disease The Environment and Health Nutrition and Health Women s Health Child Health Infectious Diseases Non Communicable Diseases and Unintentional Injuries Working Together to Improve Global Health Conflicts Natural Disasters and Other Emergencies Cooperating to Improve Global Health and Science Technology and the Public s Health Updates to the Second Edition Updated tables and charts to include the most recent data on the burden of disease and risk factors An expanded section on health disparities and health equity A greatly expanded section on Neglected Tropical Diseases An expanded section on the financing of global health and innovative financing mechanisms Additional information on drug resistance and emerging and re emerging infectious diseases Additional information on innovative mechanisms for program implementation in areas related to key chapter topics such as performance based financing in maternal health TB and health systems development An expanded section on public private

partnerships and product development partnerships for health Additional examples and mini case studies in all of the core chapters A new chapter on Careers in Global Health with information on careers which would be illustrated with profiles of global health leaders from around the world who model those careers Looking for more real life evidence Check out Cases 1 3 6 7 13 in Essential Case Studies in Public Health Putting Public Health into Practice
