It guides users in the design of project and program outputs, activities, inputs, indicators, and targets to respond to gender issues in micro, small, and medium-sized enterprise development and finance operations. ADB staff can use the tool kit to identify social and gender issues to be documented in the initial poverty and social analysis during the concept phase. Consultants can use it to carry out more detailed social and gender analysis during the project preparatory, technical assistance, or detailed design or due diligence phase. It should be noted that the tool kit is not meant to be prescriptive. Rather, it offers a menu of entry points that the project team can choose from. *The Child*, 1915 **Geologic Literature on North America, 1785-1918** John Milton Nickles, 1923 **Monthly Bulletin of the New York Free Circulating Library** New York Free Circulating Library, 1895 New York Court of Appeals. For courses in courts and the judicial process and law and society The scope of its coverage and its high academic quality makes it attractive for graduate courses as well Christopher P Banks and David M O Brien wrote Courts and Judicial Policymaking to fill a need for a comprehensive textbook on law and judicial policymaking The text provides a fresh perspective on the contemporary politics of law courts the legal profession and judicial policymaking often with an underlying comparative judicial process perspective It covers four distinct areas 1 What is law 2 How are courts organized and how do they work procedurally 3 What influences court access and ultimately judicial decision making and 4 How do courts make policy and how is judicial authority constrained It has relevant and contemporary analyses of literature from the political science and legal fields and analyses from scholars who argue from the quantitative attitudinal and strategic models and the qualitative new institutionalism perspectives It contains up to date charts and graphs on the organization of courts and trends in litigation caseloads and opinion writing and it is appropriate for undergraduate and graduate classes Feedback includes The book is extremely well written and organized one of the smoothest textbooks I have read in terms of readability The tables provided are a major selling point for the book nicely summarize complex and often confusing materials Roger Handberg University of Central Florida The best feature of this manuscript is its thorough coverage of the subject matter as well as the in depth analysis of specific topics and questions addressed in the boxed material and sidebars Adding a comparative dimension by looking at the judicial systems and procedures of other countries is also quite novel Susan Mezey Loyola University Chicago
