Is the Planet Full? Ian Goldin, 2014 What are the impacts of population growth Can our planet support the demands of the ten billion people anticipated to be the world's population by the middle of this century While it is common to hear about the problems of overpopulation might there be unexplored benefits of increasing numbers of people in the world How can we both consider and harness the potential benefits brought by a healthier wealthier and larger population May more people mean more scientists to discover how our world works more inventors and thinkers to help solve the world's problems more skilled people to put these ideas into practice In this book leading academics with a wide range of expertise in demography philosophy biology climate science economics and environmental sustainability explore the contexts costs and benefits of a burgeoning population on our economic social and environmental systems

The Euro Trap Hans-Werner Sinn, 2014-07-31 This book offers a critical assessment of the history of the euro its crisis and the rescue measures taken by the European Central Bank and the community of states The euro induced huge capital flows from the northern to the southern countries of the Eurozone that triggered an inflationary credit

bubble in the latter deprived them of their competitiveness and made them vulnerable to the financial crisis that spilled over from the US in 2007 and 2008 As private capital shied away from the southern countries the ECB helped out by providing credit from the local money printing presses The ECB became heavily exposed to investment risks in the process and subsequently had to be bailed out by intergovernmental rescue operations that provided replacement credit for the ECB credit which itself had replaced the dwindling private credit The interventions stretched the legal structures stipulated by the Maastricht Treaty which in the absence of a European federal state had granted the ECB a very limited mandate These interventions created a path dependency that effectively made parliaments vicarious agents of the ECB s Governing Council This book describes what the author considers to be a dangerous political process that undermines both the market economy and democracy without solving southern Europe s competitiveness problem It argues that the Eurozone has to rethink its rules of conduct by limiting the role of the ECB exiting the regime of soft budget constraints and writing off public and bank debt to help the crisis countries breathe again At the same time the Eurosystem should become more flexible by offering its members the option of exiting and re entering the euro something between the dollar and the Bretton Woods system until it eventually turns into a federation with a strong political power centre and a uniform currency like the dollar *The Alibaba*

Breadline Britain Stewart Lansley,Joanna Mack,2015-02-19 Poverty in Britain is at post war highs and even with economic growth is set to increase yet further Food bank queues are growing levels of severe deprivation have been rising and increasing numbers of children are left with their most basic needs unmet Based on exclusive access to the largest ever

survey of poverty in the UK and its predecessor surveys in the 1980s and 1990s Stewart Lansley and Joanna Mack track changes in deprivation and paint a devastating picture of the reality of poverty today and its causes Shattering the myth that poverty is the fault of the poor and a generous benefit system they show that the blame lies with the massive social and economic upheaval that has shifted power from the workforce to corporations and swelled the ranks of the working poor a group increasingly at the mercy of low pay zero hour contracts and downward social mobility The high levels of poverty in the UK are not ordained but can be traced directly to the political choices taken by successive governments Lansley and Mack outline an alternative economic and social strategy that is both perfectly feasible and urgently necessary if we are to reverse the course of the last three decades One of Listmuse s Greatest British Politics books **The Nigerian Journal of Rural Extension and Development** ,2013 **Dynamic Industrial Policy in Africa** United Nations.
