Youth Employment Programmes in Africa Ramos E. Mabugu, Lucas Ronconi, 2025-10-03 This book investigates youth employment programmes across nine African countries providing important insights into the world's youngest continent by population in which 60% of people are aged under 25. By 2050 the labour force in sub-Saharan Africa is expected to be almost double the size of the labour force in high income countries representing a massive shift in the world's working population and providing a significant challenge for job creation. In this book contributors bring together insights from more than 500 in depth interviews and 1 500 focus group participants to consider whether youth employment programmes are effectively reaching vulnerable groups. This book tackles the problem of political clientelism in the allocation of benefits and considers the level of coordination that is taking place across programmes and political institutions. Combining rich empirical findings with data about labour market outcomes and institutions this book will be an important read for researchers wishing to understand the political economy of youth employment policy in Africa.

Genomics and Health in the Developing World Dhavendra Kumar, 2012-05-11 Genomics and Health in the Developing World provides detailed and comprehensive coverage of population structures, human genomics and genome variation with particular emphasis on medical and health issues in the emerging economies and countries of the developing world. With sections dedicated to fundamentals of genetics and genomics, epidemiology of human disease, biomarkers, comparative genomics, developments in translational genomic medicine, current and future health strategies related to genetic disease and pertinent legislative and social factors, this volume highlights the importance of utilizing genetics/genomics knowledge to promote and achieve optimal health in the developing world. Grouped by geographic region, the chapters in this volume address inherited disorders in the developing world, including a thorough look at genetic disorders in minority groups of every continent. The progress of diagnostic laboratory, genetic testing, prenatal screening and genetic counseling worldwide, rising ethical and legal concerns of medical genetics in the developing world, social, cultural and religious issues related to genetic diseases across continents. Both timely and vastly informative, this book is a unique and comprehensive resource for geneticists, clinicians and public health professionals interested in the social, ethical, economic and legal matters associated with medical genetics in the developing world.

South Africa Pushed to the Limit Hein Marais, 2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority, yet close to half the population lives in poverty, jobs are scarce and the country is more unequal than ever. For millions, the colour of people's skin still decides their destiny. In his wide-ranging incisive and provocative analysis, Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy, many of the strategic choices made since the early 1990s have compounded those handicaps, Marais explains.

why those choices were made where they went awry and why South Africa's vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma's rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country's continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens South Africa Pushed to the Limit presents a riveting benchmark analysis of the incomplete journey beyond apartheid **Finance Week**, 2000-05 Gender Equality, HIV and Education UNESCO, 2012-12-25

The Condition of Primary and Secondary Education in Kwazulu-Natal (1995/1996) Adél Hartley, 1998 South Africa News Update, 1996 Consists of reproductions of articles from South African newspapers *The Impact of and Responses to HIV/AIDS in the Private Security and Legal Services Industry in South Africa*, 2007 Documenting the first study of its kind to be conducted in the private security and legal industries this reference provides clarity on the current status of both industries in terms of the prevalence and incidence rates of HIV Mitigating the impact of the AIDS epidemic on productivity labor costs and the supply of skills this investigation also focuses upon the varied ways in which companies have responded to the challenges of the disease The findings represent a first step in the continued monitoring and evaluation of the impacts of the epidemic in both sectors and the recommendations offer a starting point for refining HIV AIDS management strategies at a sector and company level South Africa Human Development Report 2003 United Nations Development Programme, 2003 In 1994 the new South African Government made a firm commitment to an integrated and sustainable programme of transformation which was expressed through the Reconstruction and Development Programme RDP Despite impressive achievements in several aspects of its ambitious transformation programme SA's development outcomes remain uneven and weak particularly in the area of pro poor economic transformation Household Decisions, Gender, and Development Maria Agnes R.
