

The background of the entire page is a detailed architectural painting. The top half shows a large, domed building with a golden lantern on top, set against a blue sky with light clouds. The bottom half shows a courtyard with a two-story loggia. The loggia has a series of arches and is decorated with various statues and medallions. The architecture is classical, with columns and ornate details.

**Peiresc's Europe** Peter N. Miller, Dean and Chair of Academic Programs Peter N Miller, 2000-01-01 Nicolas Claude Fabri de Peiresc 1580 1637 was during his lifetime one of Europe's most famous men A friend of Pope Urban VIII and Galileo of Peter Paul Rubens and Hugo Grotius of Tommaso Campanella and Marin Mersenne Peiresc played an important role in the intellectual culture of his time This book is the first study in English of this extraordinary man as well as a vivid portrait of his whole circle Looking through the lens of Peiresc's life Peter N Miller brings into focus the early seventeenth century world of learning its people places and ideas Drawing on the extensive Peiresc archive more than 50 000 pieces of paper Miller brilliantly evokes the lives of antiquaries philosophers theologians and politicians of Peiresc's day only some of whom remain known today He explores the age in which Peiresc's toleration and sociability his political action and cosmopolitanism and his serious scholarship without dogmatism were identified as a set of virtues and practices by which to live Peiresc's notion of scholarship as a moral exercise the sweep of his interests and the cross Continental reach of his intellectual life show with new clarity what it meant to be a man of learning during the decades around 1600 **The scientific dialogue linking**

**America, Asia and Europe between the 12th and the 20th Century.** Fabio D'Angelo, 2018-06-11 The first volume of Viaggiatori Curatele series seeks to recreate some scientific dialogues namely meetings exchanges and acquisition of theoretical and practical scientific knowledge thus linking the cultural historical and geographical context of America Asia Europe and Mediterranean Sea between the 16th and the 20th century More specifically the main objective is to consider the role of travellers as passeurs as intermediaries for building and allowing the circulation of knowhow and the practical and theoretical knowledge from one continent to another Music and its Virtues in Islamic and Judaic Writings Amnon

Shiloah, 2023-05-31 A fascinating aspect of the study of music in medieval Islamic and Judaic writings is the broad and interdisciplinary nature of the works and treatises in which it is covered In addition such works verbalize an art that was transmitted orally and took shape spontaneously typically with improvisation during performance As a result of this outlook the musical concept or science is often intertwined with practice or history This second collection by Amnon Shiloah brings together twenty two studies exemplifying such multi faceted viewpoints on the world of sounds and its virtue The first studies concern the origin and originators of music and to how its essential constituents came into being included here is the art of dance along with the controversial attitudes towards it Next comes the symbolic philosophical and metaphorical interpretation of music one of the major ideas epitomizing this approach claimed that the pursuit of knowledge is the path to human perfection and happiness There follow studies on the transmission of knowledge along with some annotated key works dealing with therapeutic effects The last articles focus on cultural traditions elaborated on European soil developing a particular style and musical practice centred on the Iberian Peninsula which was the scene of one of the most fascinating examples of cultural interchange *Peiresc's Mediterranean World* Peter N. Miller, 2015-05-11 Antiquarian lawyer and cat

lover Nicolas Fabri de Peiresc 1580 1637 was a prince of the Republic of Letters and the most gifted French intellectual in the generation between Montaigne and Descartes From Peiresc s study in Aix en Provence his insatiable curiosity poured forth in thousands of letters that traveled the Mediterranean seeking knowledge of matters mundane and exotic Mining the remarkable 70 000 page archive of this Proven al humanist and polymath Peter N Miller recovers a lost Mediterranean world of the early seventeenth century that was dominated by the sea the ceaseless activity of merchants customs officials and ships captains at the center of Europe s sprawling maritime networks Peiresc s Mediterranean World reconstructs the web of connections that linked the bustling port city of Marseille to destinations throughout the Western Mediterranean North Africa the Levant and beyond Peter Miller s reanimation of Peiresc the master of the Mediterranean is the best kind of case study It not only makes us appreciate the range and richness of one man s experience and the originality of his thought but also suggests that he had many colleagues in his deepest and most imaginative inquiries Most important it gives us hope that their archives too will be opened up by scholars skillful and imaginative enough to make them speak to us Anthony Grafton New York Review of Books
