Unfulfilled Expectations Catherine E. Snow, 1991 *Unfulfilled Expectations* examines the home and family characteristics school teaching practices and family school relationships that affect the literacy development of low income children. Eschewing comparisons across social class the authors focus exclusively on an ethnically diverse group of low income children in grades two four and six the thirty two subjects of an intensive two year study and a follow up study five years later. The authors pinpoint the diverse home factors that can explain differential achievement by youngsters from the same socioeconomic background. These include the family's own uses of literacy their attitudes toward and communication with the schools their social networks their rules and schedules and their susceptibility to economic and psychological stress. The book challenges assumptions about low income families commitment to and interest in their children's schooling and offers valuable recommendations for parents teachers and administrators to ensure that low income children fulfill their early promise.

The King's Jester Barry Anthony, 2010-05-30 Who was Dan Leno? In 1901 everyone in Britain knew who he was. They had seen him live on the music hall stage listened to his jokes on the new gramophone and watched his funny antics in some of the earliest moving pictures. Even King Edward VII was a fan and the popular press dubbed Dan Leno 'The King's Jester'. But his path to fame was a hard one: he journeyed from being a child performer in the London and Liverpool slums to a chaotic career in hard bitten northern variety theatres. Dan became the nation's favourite comedian but as one of the first mass media stars he suffered from this continual exposure and died at the early age of forty three. Drawing on many previously unused sources this is the first authoritative biography of Dan Leno. Only Charlie Chaplin often compared to Dan in style and appearance was to occupy a similar position in the hearts of the British public. In telling the full story of Dan's life and career on the stage and screen Barry Anthony brings to life the everyday life of Victorian Britain as well as Dan's unique brand of humour and its resonance with later comedians such as Spike Milligan and the Monty Python team.

Metaphor Beate Hampe, 2017-06-29 Metaphor theory has shifted from asking whether metaphor is conceptual or linguistic to debating whether it is embodied or discursive. Although recent work in the social and cognitive sciences has

yielded clear opportunities to resolve that dispute the divide between discourse and cognition oriented approaches has remained To unite the field this book brings together leading metaphor researchers from a number of disciplines It collects major arguments and presents a wide variety of empirical evidence placing special emphasis on the embodiment and socio cultural embeddedness of cognition as well as the multi modal and social interactive nature of communication It shows that metaphor theory can only profit from an approach that takes multiple perspectives into consideration and tries to account for findings yielded by multiple methodologies By doing so it works towards a dynamic multi dimensional socio cognitive model of metaphor that goes beyond what research traditions have separately achieved
